

Contents

1	Introduction: Transition Metal Oxides and Their Heterostructures	1
	References.	10
2	The Rare-Earth Nickelates	13
2.1	Bulk Electronic, Magnetic, and Structural Properties	13
2.2	Nickelate Heterostructures	18
2.2.1	Orbital Control of Non-collinear Magnetic Order	21
2.2.2	Heterostructures Oriented Along the [111] Direction	23
	References.	25
3	Experimental Techniques	31
3.1	Inelastic Raman Light Scattering	31
3.1.1	Classical Description of Raman Scattering	32
3.1.2	Quantum Mechanical Description of Raman Scattering.	36
3.1.3	Raman Mode Symmetry and Selection Rules of Nickelates.	37
3.1.4	Raman Instrumentation	41
3.1.5	The Confocal z -scan Technique	44
3.1.6	Analysis of the Raman Data	48
3.2	Elastic X-Ray Scattering.	49
3.2.1	Principles of X-Ray Scattering	50
3.2.2	X-Ray Absorption Spectroscopy	53
3.2.3	Magnetic X-Ray Scattering	57
3.2.4	X-Ray Sources: Synchrotron Radiation.	60
	References.	63
4	Tunable Order Parameters in Nickelate Heterostructures	69
4.1	Raman Spectroscopy of Ultra-Thin Oxide Heterostructures	69
4.1.1	Perovskite Oxide Substrates	70
4.1.2	Comparing the Confocal z -scan to Previous Raman Studies	73

4.2	Lattice Dynamics of Nickelate Heterostructures	78
4.2.1	Ultra-Thin LaNiO_3 Films and the Evolution of the E_g Bending Mode.	78
4.2.2	Phase Transitions of NdNiO_3	79
4.2.3	Symmetry Analysis and Phonon Calculations	83
4.2.4	Comparative Raman Study of Nickelates	88
4.3	Spin Density Wave in PrNiO_3 Heterostructures	93
4.4	Conclusion and Outlook	102
	References.	103
5	Complex Magnetic Order in Nickelate Slabs.	109
5.1	[111] Oriented Heterostructures and Interfaces	109
5.2	Truncated [111] Nickelate Slabs as an Elementary Magnetic Model System.	114
5.3	Experimental Characterization of Samples	115
5.3.1	Electrical Transport.	117
5.3.2	Scanning Transmission Electron Microscopy	119
5.3.3	Resonant Soft X-Ray Reflectivity	121
5.3.4	X-Ray Absorption Spectroscopy	123
5.4	Double Cluster Modeling	125
5.5	Magnetic Azimuthal Dependence	127
5.6	Density Functional Theory Calculations	132
5.7	Conclusion and Outlook	139
	References.	140
	Appendix A: Lattice Constants	145
	Appendix B: Raman Intensities	147

Ordering Phenomena in Rare-Earth Nickelate
Heterostructures

Hepting, M.

2017, XVI, 147 p. 63 illus., 56 illus. in color., Hardcover

ISBN: 978-3-319-60530-2
