Contents

Preface v

List of Symbols xiii

1 Introduction 1
1.1 Examples 1
1.1.1 Linear and Nonlinear Perturbations and High-Order Asymptotic Expansions 1
1.1.2 Laurent Asymptotic Expansions 3
1.1.3 Recurrent Algorithms of Phase Space Reduction 5
1.1.4 Rates of Convergence and Explicit Upper Bounds for Remainders of Asymptotic Expansions 9
1.2 Contents of the Book 10
1.2.1 Chapter 2 11
1.2.2 Chapter 3 11
1.2.3 Chapter 4 13
1.2.4 Chapter 5 13
1.2.5 Chapter 6 14
1.2.6 Appendix A 14
1.3 Conclusion 14

2 Laurent Asymptotic Expansions 17
2.1 Laurent Asymptotic Expansions with Remainders Given in the Standard Form 17
2.1.1 Definition of Laurent Asymptotic Expansions with Remainders Given in the Standard Form 17
2.1.2 Operational Rules for Laurent Asymptotic Expansion with Remainders Given in the Standard Form 19
2.1.3 Algebraic Properties of Operational Rules for Laurent Asymptotic Expansions with Remainders Given in the Standard Form 22

2.2 Laurent Asymptotic Expansions with Explicit Upper Bounds for Remainders 22
2.2.1 Definition of Laurent Asymptotic Expansions with Explicit Upper Bounds for Remainders 22
2.2.2 Operational Rules for Laurent Asymptotic Expansion with Explicit Upper Bounds for Remainders 24
2.2.3 Algebraic Properties of Operational Rules for Laurent Asymptotic Expansions with Explicit Upper Bounds for Remainders 27
2.3 Proofs of Lemmas 2.1–2.8 28
2.3.1 Lemmas 2.1 and 2.5 28
2.3.2 Lemmas 2.2 and 2.6 29
2.3.3 Lemmas 2.3 and 2.7 34
2.3.4 Lemmas 2.4 and 2.8 34

3 Asymptotic Expansions for Moments of Hitting Times for Nonlinearly Perturbed Semi-Markov Processes 37
3.1 Perturbed Semi-Markov Processes 37
3.1.1 Perturbed Semi-Markov Processes 37
3.1.2 Hitting Times for Semi-Markov Processes 39
3.1.3 Stationary Distributions for Semi-Markov Processes 41
3.1.4 Perturbation Conditions for Semi-Markov Processes 42
3.2 Reduction of Phase Spaces for Semi-Markov Processes 46
3.2.1 Semi-Markov Processes with Reduced Phase Spaces 47
3.2.2 Basic Model Conditions for Reduced Semi-Markov Processes 50
3.2.3 Hitting Times for Reduced Semi-Markov Processes 51
3.3 Asymptotic Expansions for Moments of Hitting Times for Perturbed Semi-Markov Processes 52
3.3.1 Asymptotic Expansions with Remainders Given in the Standard Form for Transition Characteristics of Reduced Semi-Markov Processes 52
3.3.2 Asymptotic Expansions with Remainders Given in the Standard Form for Moments of Hitting Times for Reduced Semi-Markov Processes 57
3.3.3 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Transition Characteristics of Reduced Semi-Markov Processes 61
3.3.4 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Moments of Hitting Times for Reduced Semi-Markov Processes 65

4 Asymptotic Expansions for Stationary Distributions of Nonlinearly Perturbed Semi-Markov Processes 67
4.1 Asymptotic Expansions with Remainders Given in the Standard Form for Stationary Distributions of Perturbed Semi-Markov Processes 67
4.1.1 Asymptotic Expansions with Remainders Given in the Standard Form for Expectations of Return Times 68
4.1.2 Asymptotic Expansions with Remainders Given in the Standard Form for Stationary Distributions 70
4.2 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Stationary Distributions of Perturbed Semi-Markov Processes 71
4.2.1 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Expectations of Return Times 72
4.2.2 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Stationary Distributions 73
4.3 Asymptotic Expansions for Stationary Functionals for Perturbed Semi-Markov Processes 75
4.3.1 Asymptotic Expansions for Conditional Quasi-Stationary Distributions 75
4.3.2 Asymptotic Expansions for Stationary Limits of Additive Functionals 78

5 Nonlinearly Perturbed Birth-Death-Type Semi-Markov Processes . . . 81
5.1 Stationary and Quasi-Stationary Distributions for Perturbed Birth-Death-Type Semi-Markov Processes 82
5.1.1 Perturbed Birth-Death-Type Semi-Markov Processes 82
5.1.2 Stationary and Quasi-Stationary Distributions for Perturbed Birth-Death-Type Semi-Markov Processes 85
5.1.3 Reduced Birth-Death-Type Semi-Markov Processes 87
5.1.4 Explicit Formulas for Expectations of Return Times and Stationary Probabilities for Birth-Death-Type Semi-Markov Processes 89
5.2 Asymptotic Expansions with Remainders Given the Standard Form for Perturbed Birth-Death-Type Semi-Markov Processes 92
5.2.1 Asymptotic Expansions with Remainders Given in the Standard Form for Expectations of Return Times and Related Functionals 92
5.2.2 Asymptotic Expansions with Remainders Given in the Standard Form for Stationary and Conditional Quasi-Stationary Distributions 98
5.2.3 Asymptotic Expansions with Remainders Given in the Standard Form and the Algorithm of Sequential Phase Space Reduction 101

5.3 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Perturbed Birth-Death-Type Semi-Markov Processes . . . 102
5.3.1 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Expectations of Return Times and Related Functionals . . . 102
5.3.2 Asymptotic Expansions with Explicit Upper Bounds for Remainders for Stationary and Conditional Quasi-Stationary Distributions . . . 105
5.3.3 Asymptotic Expansions with Explicit Upper Bounds for Remainders and the Algorithm of Sequential Phase Space Reduction . . . 106

6 Examples and Survey of Applied Perturbed Stochastic Models . . . 107
6.1 A Background for Numerical Examples . . . 107
6.1.1 Perturbation Conditions for Transition Probabilities of Embedded Markov Chains . . . 107
6.1.2 Perturbation Conditions for Expectations of Transition Times . . . 110
6.2 Numerical Examples . . . 111
6.2.1 Asymptotic Expansions with Remainders Given in the Standard Form . . . 111
6.2.2 Asymptotic Expansions with Explicit Upper Bounds for Remainders . . . 114
6.3 A Survey of Perturbed Stochastic Models . . . 115
6.3.1 Perturbed Queuing Systems . . . 116
6.3.2 Perturbed Stochastic Networks . . . 117
6.3.3 Perturbed Bio-Stochastic Systems . . . 119
6.3.4 Other Classes of Perturbed Stochastic Systems . . . 120

A Methodological and Bibliographical Remarks . . . 123
A.1 Methodological Remarks . . . 123
A.2 New Results Presented in the Book . . . 125
A.3 New Problems . . . 128

References . . . 131

Index . . . 141
