

Contents

Communications, Networks and Architectures

On the Impact of Using Public Network Communication Infrastructure for Voltage Control Coordination in Smart Grid Scenario.	3
<i>Kamal Shahid, Lennart Petersen, Florin Iov, and Rasmus L. Olsen</i>	
Energy Management Using a Situational Awareness-Centric Ad-Hoc Network in a Home Environment	15
<i>Tannaz Monajemi, Ardavan Rahimian, and Kamyar Mehran</i>	
Interference Assessment for the Spectrum Sharing Between IMT-2020 and Inter-satellite Service	25
<i>Bo Li, Zhaojun Qian, Shuaijun Liu, Chaowei Wang, Yinghai Zhang, and Weidong Wang</i>	
A Novel Transmission Line Safety Monitoring System for Smart Grid	35
<i>Chien-Hao Wang, Xiang-Yao Zheng, Yu-Cheng Yang, Ching-Ya Tseng, Kai-Sheng Tseng, and Joe-Air Jiang</i>	

Smart Control and Operation

Operation Optimisation Towards Generation Efficiency Improvement in Saudi Arabia, Using Mathematical Programming and Simulation.	49
<i>Mohammad Althaqafi and Qingping Yang</i>	
Scheduling Domestic Shiftable Loads in Smart Grids: A Learning Automata-Based Scheme.	58
<i>Rajan Thapa, Lei Jiao, B. John Oommen, and Anis Yazidi</i>	
An Explicit Battery Discharging Model to Enable Vehicle to Grid Services . . .	69
<i>Sandford Bessler</i>	

Grid and Components

Intelligent Signal Processing for the Use in Device Identification Using Smart Sockets	81
<i>Al-Azhar Lalani, Emilio Mistretta, and Johann Siau</i>	
Design of a Seismic Hazard Risk Assessment Model for EHV Transmission Grid.	87
<i>Ching-Ya Tseng, Chien-Hao Wang, Xiang-Yao Zheng, Huan-Chieh Chiu, and Joe-Air Jiang</i>	

A Review of Wireless Power Transfer Electric Vehicles
in Vehicle-to-Grid Systems. 98
Chao Liu, Eng Tseng Lau, Kok Keong Chai, and Yue Chen

Data Management and Grid Analytics

Demand Profiling and Demand Forecast Using the Active-Aware-Based
Ensemble Kalman Filter. 111
Eng Tseng Lau, Kok Keong Chai, and Yue Chen

A New Approach to the Analysis of Network Observability in Medium
and Low Voltage Electrical Grids 122
Guosong Lin, Sascha Eichstädt, Dirk Turschner, and Hans-Peter Beck

Deep Learning Based Consumer Classification for Smart Grid 132
*Kálmán Tornai, András Oláh, Rajmund Drenyovszki,
Lóránt Kovács, István Pintér, and János Levendovszky*

Grid Resilience Governance of the Future: Analyzing the Role of
Associations in Experimental Smart Grid Projects in The Netherlands 142
Imke Lammers and Alexandr Vasenev

Invited Papers

Analyzing Cyber Requirements for the Smart Grid Applications 151
Anurag K. Srivastava

Low-Disruptive and Timely Dynamic Software Updating of Smart Grid
Components 155
*Martin Alexander Neumann, Christoph Tobias Bach, Yong Ding,
Till Riedel, and Michael Beigl*

Performance Evaluation of the Contention-Based Random Access
of LTE Under Smart Grid Traffic 172
*Charalampos Kalalas, Francisco Vazquez-Gallego,
and Jesus Alonso-Zarate*

Mobile Secure Communications in Smart Grid Control 182
Giovanna Dondossola and Roberta Terruggia

Congestion Probability Balanced Electric Vehicle Charging Strategy
in Smart Grid 192
Qiang Tang, Kun Yang, Yuan-sheng Luo, and Yu-yan Liu

IRENE Workshop

A Tool for Evolutionary Threat Analysis of Smart Grids	205
<i>Tommaso Zoppi, Andrea Ceccarelli, and Marco Mori</i>	
A Tool that Uses Demand Side Management for Planning the Grid Response to Outages	212
<i>Sandford Bessler, Daniel Hovie, and Oliver Jung</i>	
An Overall Grid Modelling Tool for Modelling Smart Grids	223
<i>Eng Tseng Lau, Kok Keong Chai, and Yue Chen</i>	
A Modeling Framework to Support Resilient Evolution Planning of Smart Grids	233
<i>Tommaso Zoppi, Sandford Bessler, Andrea Ceccarelli, Edward Lambert, Eng Tseng Lau, and Alexandr Vasenev</i>	
Outlining an ‘Evaluation Continuum’: Structuring Evaluation Methodologies for Infrastructure-Related Decision Making Tools	243
<i>Alexandr Vasenev, Lorena Montoya, and Dan Ionita</i>	

WCSG Workshop

Optical Fibre-Based Environmental Sensors Utilizing Wireless Smart Grid Platform	253
<i>Minglong Zhang, Kin Kee Chow, and Peter Han Joo Chong</i>	
Scalable Cloud-Based Data Storage Platform for Smart Grid	259
<i>Hnin Yu Shwe, Soong Boon Hee, and Peter Han Joo Chong</i>	
Author Index	267

Smart Grid Inspired Future Technologies
Second EAI International Conference, SmartGIFT 2017,
London, UK, March 27–28, 2017, Proceedings
Lau, E.T.; Chai, M.K.K.; Chen, Y.; Jung, O.; Leung, V.C.M.;
Yang, K.; Bessler, S.; Loo, J.; Nakayama, T. (Eds.)
2017, XI, 268 p. 99 illus., Softcover
ISBN: 978-3-319-61812-8
