
Contents

1	Introduction	1
	Gerald T. Grant and Frank J. Rybicki	
2	3D Printing Technologies	5
	Dimitrios Mitsouras and Peter C. Liacouras	
3	Post-processing of DICOM Images	23
	Andreas A. Giannopoulos and Todd Pietila	
4	Beginning and Developing a Radiology-Based In-Hospital 3D Printing Lab	35
	Adnan Sheikh, Leonid Chepelev, Andrew M. Christensen, Dimitris Mitsouras, Betty Anne Schwarz, and Frank J. Rybicki	
5	Craniofacial Applications of 3D Printing	43
	Gerald T. Grant and Peter C. Liacouras	
6	3D Printing in Neurosurgery	51
	Vicknes Waran, Vairavan Narayanan, Ravindran Karrupiah, and Chun Yoong Cham	
7	Cardiovascular 3D Printing	59
	Andreas A. Giannopoulos, Dimitris Mitsouras, Betty Anne Schwarz, Karin E. Dill, and Frank J. Rybicki	
8	Musculoskeletal 3D Printing	71
	Satheesh Krishna, Kirstin Small, Troy Maetani, Leonid Chepelev, Betty Anne Schwarz, and Adnan Sheikh	
9	3D Printing and Patient-Matched Implants	85
	Andrew M. Christensen	
10	FDA Regulatory Pathways and Technical Considerations for the 3D Printing of Medical Models and Devices	97
	James C. Coburn and Gerald T. Grant	

11	Quality and Safety of 3D-Printed Medical Models	113
	Dimitrios Mitsouras, Elizabeth George, and Frank J. Rybicki	
12	Virtual Reality	125
	Justin Sutherland and Dan La Russa
