

CONTENTS

Part I The First Generation: Addressing Markets Up and Down

1	Baryonic Beta Dynamics: The Econophysics of Systematic Risk	3
1.1	<i>The Conventional Capital Asset Pricing Model</i>	3
1.2	<i>The Efficient Market Hypothesis</i>	5
1.3	<i>Challenging Efficient Markets and the CAPM</i>	7
1.4	<i>Multifactor Models and the Battle Over Beta</i>	10
1.5	<i>Baryonic Beta Dynamics</i>	13
2	Double- and Single-Sided Risk Measures	31
2.1	<i>Double-Sided Measures of Volatility, Variance, and Beta</i>	31
2.2	<i>Single-Sided Risk Measures</i>	32
2.3	<i>The Trigonometry of Semideviation</i>	37
2.4	<i>The Behavioral Implications of Single-Sided Risk Measures</i>	38

Part II The Second Generation: The Strange Charm of Volatility and Correlation

3	Relative Volatility Versus Correlation Tightening	49
3.1	<i>Single-Sided Beta's Discrete Volatility and Correlation Components</i>	49
3.2	<i>Sinking, Fast and Slow</i>	53
3.3	<i>Parameters Indicating Relative Volatility and Correlation Tightening</i>	55
4	Asymmetrical Volatility and Spillover Effects	65
4.1	<i>The Beta Quotient</i>	65
4.2	<i>Changes in Volatility Over Time and Across Financial Space</i>	66
4.3	<i>The Leverage Effect</i>	68
4.4	<i>Volatility Feedback</i>	69
4.5	<i>Options Pricing and Implied Volatility</i>	71
4.6	<i>Volatility Spillovers</i>	72
5	The Low-Volatility Anomaly	87
5.1	<i>The Low-Volatility Anomaly</i>	87
5.2	<i>Bowman's Paradox</i>	90
6	Correlation Tightening	99
6.1	<i>Correlation at the Core of the Risk-Return Relationship</i>	99
6.2	<i>Correlation Tightening in Emerging Markets</i>	102
6.3	<i>Isolating and Pricing Correlation Risk</i>	108
6.4	<i>Correlation Risk and the Low-Volatility Anomaly</i>	110
6.5	<i>Liquidity Risk as a Component of Correlation Risk</i>	111
6.6	<i>Evidence Against a Correlation Risk Premium</i>	113

Part III The Third Generation: Truth and Beauty in Cash-Flow and Discount-Rate Effects

7	The Intertemporal Capital Asset Pricing Model	127
7.1	<i>Intertemporal Asset Pricing</i>	127
7.2	<i>Consumption Smoothing</i>	130
8	The Equity Premium Puzzle	139
8.1	<i>The Equity Risk Premium</i>	139
8.2	<i>The Stock Market Nonparticipation Puzzle</i>	141
8.3	<i>The Equity Premium Puzzle</i>	144
8.4	<i>The Risk-Free Rate Puzzle</i>	146
8.5	<i>Habit Formation</i>	148
8.6	<i>Life-Cycle Economics</i>	150
8.7	<i>Catching Up with the Joneses</i>	151
8.8	<i>Coming Full Circle</i>	152
9	Beta's Cash Flow and Discount Rate Components	175
9.1	<i>Bad Beta, Good Beta</i>	175
9.2	<i>Reexamining the Low-Volatility Anomaly Through the Three Generations of Baryonic Beta</i>	180
10	Risk and Uncertainty	189
10.1	<i>Epistemic Risk Versus Aleatory Uncertainty</i>	189
10.2	<i>Information Uncertainty</i>	192
10.3	<i>Ambiguity Aversion</i>	196
10.4	<i>Rational Learning</i>	199
11	Short-Term Price Continuation Anomalies	213
11.1	<i>Post-Earnings Announcement Drift</i>	213
11.2	<i>Momentum</i>	216
11.3	<i>A Unified Theory of Rational Drift</i>	218
11.4	<i>Uncertainty Revisited: Mixed Signals</i>	223
12	Systematic Risk in the Macrocosm	239
12.1	<i>Microcosm and Macrocosm</i>	239
12.2	<i>Macroeconomics and Capital Markets</i>	240
12.3	<i>Decoupling</i>	242

12.4	<i>Bad News, Good News</i>	246
12.5	<i>A Taxonomy of Macroeconomic Announcements</i>	248
12.6	<i>From Macroeconomic Aggregates to Aggregate Wealth</i>	251
12.7	<i>Consumed by Uncertainty</i>	256
13	The Baryonic Ladder: The Firm, the Market, and the Economy	275
	Index	285
