

Contents

Forensics

HEVC Double Compression Detection Based on SN-PUPM Feature	3
<i>Qianyi Xu, Tanfeng Sun, Xinghao Jiang, and Yi Dong</i>	
Towards Automated Forensic Pen Ink Verification by Spectral Analysis	18
<i>Michael Kalbitz, Tobias Scheidat, Benjamin Yüksel, and Claus Vielhauer</i>	
Recaptured Image Forensics Based on Quality Aware and Histogram Feature.	31
<i>Pengpeng Yang, Ruihan Li, Rongrong Ni, and Yao Zhao</i>	
Website Fingerprinting Attack on Psiphon and Its Forensic Analysis	42
<i>Tekachew Gobena Ejeta and Hyoung Joong Kim</i>	
Deep Learning Based Counter-Forensic Image Classification for Camera Model Identification	52
<i>Venkata Udaya Sameer, Ruchira Naskar, Nikhita Musthyala, and Kalyan Kokkalla</i>	
Block-Based Convolutional Neural Network for Image Forgery Detection . . .	65
<i>Jianghong Zhou, Jiangqun Ni, and Yuan Rao</i>	
A Hybrid Feature Model for Seam Carving Detection	77
<i>Jingyu Ye and Yun-Qing Shi</i>	

Biometric Image Tampering Detection

Face Morphing Detection: An Approach Based on Image Degradation Analysis.	93
<i>Tom Neubert</i>	
Detection of Face Morphing Attacks by Deep Learning	107
<i>Clemens Seibold, Wojciech Samek, Anna Hilsmann, and Peter Eisert</i>	
CNNs Under Attack: On the Vulnerability of Deep Neural Networks Based Face Recognition to Image Morphing	121
<i>Lukasz Wandzik, Raul Vicente Garcia, Gerald Kaeding, and Xi Chen</i>	
Topological Data Analysis for Image Tampering Detection	136
<i>Aras Asaad and Sabah Jassim</i>	

Steganography and Steganalysis

Coding Efficiency Preserving Steganography Based on HEVC Steganographic Channel Model.	149
<i>Yi Dong, Xinghao Jiang, Tanfeng Sun, and Dawen Xu</i>	
A Prediction Mode-Based Information Hiding Approach for H.264/AVC Videos Minimizing the Impacts on Rate-Distortion Optimization.	163
<i>Yu Wang, Yun Cao, Xianfeng Zhao, and Linna Zhou</i>	
Adaptive Audio Steganography Based on Advanced Audio Coding and Syndrome-Trellis Coding.	177
<i>Weiwei Luo, Yue Zhang, and Haodong Li</i>	
Information Hiding Using CAVLC: Misconceptions and a Detection Strategy	187
<i>Weike You, Yun Cao, and Xianfeng Zhao</i>	
Adaptive MP3 Steganography Using Equal Length Entropy Codes Substitution	202
<i>Kun Yang, Xiaowei Yi, Xianfeng Zhao, and Linna Zhou</i>	
A Steganalysis Scheme for AAC Audio Based on MDCT Difference Between Intra and Inter Frame	217
<i>Yanzhen Ren, Qiaochu Xiong, and Lina Wang</i>	

Emerging Threats of Criminal Use of Information Hiding: Usage Scenarios and Detection Approaches

A Prediction Model Based Approach to Open Space Steganography Detection in HTML Webpages	235
<i>Iman Sedeeq, Frans Coenen, and Alexei Lisitsa</i>	
Towards Covert Channels in Cloud Environments: A Study of Implementations in Virtual Networks	248
<i>Daniel Spiekermann, Jörg Keller, and Tobias Eggendorfer</i>	
Steganalysis Based on Awareness of Selection-Channel and Deep Learning	263
<i>Jianhua Yang, Kai Liu, Xiangui Kang, Edward Wong, and Yunqing Shi</i>	

Watermarking

Improved Algorithms for Robust Histogram Shape-Based Image Watermarking	275
<i>Bingwen Feng, Jian Weng, and Wei Lu</i>	

Image Quality Assessment in Reversible Data Hiding with Contrast Enhancement	290
<i>Hao-Tian Wu, Shaohua Tang, and Yun-Qing Shi</i>	
Improved Reversible Visible Watermarking Based on Adaptive Block Partition	303
<i>Guangyuan Yang, Wenfa Qi, Xiaolong Li, and Zongming Guo</i>	
Robust Zero Watermarking for 3D Triangular Mesh Models Based on Spherical Integral Invariants	318
<i>Chenchen Cui, Rongrong Ni, and Yao Zhao</i>	
On the Statistical Properties of Syndrome Trellis Coding	331
<i>Olaf Markus Köhler, Cecilia Pasquini, and Rainer Böhme</i>	
A Blind Reversible Data Hiding Method for High Dynamic Range Images Taking Advantage of Sparse Histogram	347
<i>Masaaki Fujiyoshi and Hitoshi Kiya</i>	
Other Topics	
A Novel Visual Cryptography Scheme with Different Importance of Shadows	365
<i>Peng Li and Zuquan Liu</i>	
A Novel Image Classification Method with CNN-XGBoost Model	378
<i>Xudie Ren, Haonan Guo, Shenghong Li, Shilin Wang, and Jianhua Li</i>	
Improvement and Evaluation of Time-Spread Echo Hiding Technology for Long-Distance Voice Evacuation Systems	391
<i>Akira Nishimura</i>	
Temporal Integration Based Visual Cryptography Scheme and Its Application	406
<i>Wen Wang, Feng Liu, Teng Guo, and Yawei Ren</i>	
Author Index	421

Digital Forensics and Watermarking

16th International Workshop , IWDW 2017, Magdeburg,

Germany, August 23-25, 2017, Proceedings

Kraetzer, C.; Shi, Y.-Q.; Dittmann, J.; Kim, H.J. (Eds.)

2017, XI, 422 p. 174 illus., Softcover

ISBN: 978-3-319-64184-3
