

# Contents

**The Appearance and Diversification of Receptors for IgM During Vertebrate Evolution** . . . . . 1  
Srinivas Akula and Lars Hellman

**Authentic IgM Fc Receptor (FcμR)** . . . . . 25  
Hiromi Kubagawa, Christopher M. Skopnik, Jakob Zimmermann, Pawel Durek, Hyun-Dong Chang, Esther Yoo, Luigi F. Bertoli, Kazuhito Honjo and Andreas Radbruch

**FCRLA—A Resident Endoplasmic Reticulum Protein that Associates with Multiple Immunoglobulin Isotypes in B Lineage Cells** . . . . . 47  
Tessa E. Blackburn, Teresa Santiago and Peter D. Burrows

**Specific IgM and Regulation of Antibody Responses** . . . . . 67  
Anna Sörman and Birgitta Heyman

**Role of Natural IgM Autoantibodies (IgM-NAA) and IgM Anti-Leukocyte Antibodies (IgM-ALA) in Regulating Inflammation** . . . 89  
Peter I. Lobo

IgM and Its Receptors and Binding Proteins

Kubagawa, H.; Burrows, P.D. (Eds.)

2017, IX, 117 p. 30 illus., 15 illus. in color., Hardcover

ISBN: 978-3-319-64524-7
