Introduction	ix
1 Non-instantaneous Impulses in Differential Equations	1
1.1 Statement of the Problem	1
1.2 Existence	10
1.3 Stability	14
1.3.1 Stability, Uniform Stability, and Asymptotic Uniform Stability of Nonlinear Differential Equations with Non-instantaneous Impulses	14
1.3.2 Practical Stability for Differential Equations with Non-instantaneous Impulses	30
1.3.3 Lipschitz Stability for Differential Equations with Non-instantaneous Impulses	50
1.4 Monotone-Iterative Technique for Differential Equations with Non-instantaneous Impulses	58
2 Non-instantaneous Impulses in Differential Equations with Caputo Fractional Derivatives	73
2.1 Statement of the Problem	73
2.1.1 Preliminary Notes on Fractional Derivatives and Equations..	74
2.1.2 Ordinary Differential Equations Versus Caputo Fractional Differential Equations	77
2.1.3 Non-instantaneous Impulses in Caputo Fractional Differential Equations	82
2.2 Existence Results for Caputo Fractional Differential Equations with Non-instantaneous Impulses	98
2.3 Stability of Caputo Fractional Differential Equations with Non-instantaneous Impulses	108
2.3.1 Lyapunov Functions and Their Derivatives for Caputo Fractional Differential Equations	108

2.3.2	Comparison Results for Caputo Fractional Differential Equations with Non-instantaneous Impulses and Lyapunov Functions	120
2.3.3	Mittag–Leffler Stability for NIFrDE	135
2.3.4	Stability, Uniform Stability, and Asymptotic Stability of NFrDE.....	142
2.3.5	Practical Stability for NIFrDE	150
2.3.6	Strict Stability of NIFrDE	159
2.4	Iterative Techniques for Caputo Fractional Differential Equations with Non-instantaneous Impulses	171
2.4.1	Monotone-Iterative Technique for Caputo Fractional Differential Equations with Non-instantaneous Impulses	171
2.4.2	Iterative Technique by Lower and Upper Solutions.....	185
3	Non-instantaneous Impulses on Random Time in Differential Equations with Ordinary/Fractional Derivatives	193
3.1	Random Non-instantaneous Impulses in Differential Equations	193
3.2	p-Moment Exponential Stability of Differential Equations with Random Non-instantaneous Impulses and the Erlang Distribution.....	197
3.2.1	Erlang Distributed Moments of Impulses	197
3.2.2	Linear Equations with Random Non-instantaneous Impulses.....	202
3.2.3	p-Moment Exponential Stability for RNIDE with the Erlang Distribution.....	208
3.3	p-Moment Exponential Stability of Differential Equations with Random Non-instantaneous Impulses and the Gamma Distribution.....	211
3.3.1	Gamma Distributed Moments of Impulses	211
3.3.2	p-Moment Exponential Stability for RNIDE with Gamma Distribution	219
3.4	p-Moment Exponential Stability of Caputo Fractional Differential Equations with Random Non-instantaneous Impulses...	224
3.4.1	Random Non-instantaneous Impulses in Fractional Differential Equations	224
3.4.2	Linear Fractional Differential Equations with Random Non-instantaneous Impulses	229
3.4.3	Lyapunov Functions	234
3.4.4	p-Moment Exponential Stability of Caputo Fractional Differential Equations with Random Non-instantaneous Impulses	235
	Bibliography	245

Non-Instantaneous Impulses in Differential Equations

Agarwal, R.P.; Hristova, S.; O' Regan, D.

2017, XI, 251 p. 49 illus., Hardcover

ISBN: 978-3-319-66383-8
