

Contents

Invited Papers

A Vision for Automated Deduction Rooted in the Connection Method	3
<i>Wolfgang Bibel</i>	
Locally Abstract, Globally Concrete Semantics of Concurrent Programming Languages	22
<i>Crystal Chang Din, Reiner Hähnle, Einar Broch Johnsen, Ka I. Pun, and Silvia Lizeth Tapia Tarifa</i>	
On the Decidability of Certain Semi-Lattice Based Modal Logics	44
<i>Katalin Bimbó</i>	

Sequent Systems

Cut-Admissibility as a Corollary of the Subformula Property	65
<i>Ori Lahav and Yoni Zohar</i>	
Proof Theory for Indexed Nested Sequents	81
<i>Sonia Marin and Lutz Straßburger</i>	
Interpreting Sequent Calculi as Client-Server Games	98
<i>Christian G. Fermüller and Timo Lang</i>	
A Forward Unprovability Calculus for Intuitionistic Propositional Logic	114
<i>Camillo Fiorentini and Mauro Ferrari</i>	
Hypersequent Calculi for Lewis' Conditional Logics with Uniformity and Reflexivity	131
<i>Marianna Girlando, Björn Lellmann, Nicola Olivetti, and Gian Luca Pozzato</i>	
VINTE: An Implementation of Internal Calculi for Lewis' Logics of Counterfactual Reasoning	149
<i>Marianna Girlando, Björn Lellmann, Nicola Olivetti, Gian Luca Pozzato, and Quentin Vitalis</i>	

Tableaux

Goal-Sensitive Reasoning with Disconnection Tableaux	163
<i>Lee A. Barnett</i>	

Tableaux for Policy Synthesis for MDPs with PCTL* Constraints.	175
<i>Peter Baumgartner, Sylvie Thiébaux, and Felipe Trevizan</i>	
Minimisation of ATL* Models	193
<i>Serenella Cerrito and Amélie David</i>	
Non-clausal Connection Calculi for Non-classical Logics	209
<i>Jens Otten</i>	
Rule Refinement for Semantic Tableau Calculi	228
<i>Dmitry Tishkovsky and Renate A. Schmidt</i>	
Transitive Closure and Cyclic Proofs	
Completeness for Ancestral Logic via a Computationally-Meaningful Semantics	247
<i>Liron Cohen</i>	
A Cut-Free Cyclic Proof System for Kleene Algebra	261
<i>Anupam Das and Damien Pous</i>	
Integrating a Global Induction Mechanism into a Sequent Calculus	278
<i>David M. Cerna and Michael Lettmann</i>	
Realizability in Cyclic Proof: Extracting Ordering Information for Infinite Descent	295
<i>Reuben N.S. Rowe and James Brotherston</i>	
Cyclic Proofs with Ordering Constraints	311
<i>Sorin Stratulat</i>	
Formalization and Complexity	
A Mechanizable First-Order Theory of Ordinals	331
<i>Peter H. Schmitt</i>	
Issues in Machine-Checking the Decidability of Implicational Ticket Entailment	347
<i>Jeremy E. Dawson and Rajeev Goré</i>	
Parameterized Provability in Equational Logic	364
<i>Mateus de Oliveira Oliveira</i>	
Author Index	381

Automated Reasoning with Analytic Tableaux and
Related Methods

26th International Conference, TABLEAUX 2017,
Brasília, Brazil, September 25–28, 2017, Proceedings
Schmidt, R.A.; Nalon, C. (Eds.)

2017, XII, 381 p. 75 illus., Softcover

ISBN: 978-3-319-66901-4
