List of Symbols and Abbreviations	XIX
List of Figures	XXIII
List of Tables	XXV
1 Introduction	1
1.1 Problem Statement	1
1.2 Research Goal	4
1.3 Outline of this Thesis	5
2 Agency: An Abstract and Multifaceted Construct	9
2.1 Agency in the Workplace Learning Literature	10
2.1.1 Agency as a Prerequisite of Work-Related Learning . .	11
2.1.2 Agency as Something Individuals Do	21
2.1.3 Agency as an Outcome of Work-Related Learning . . .	32
2.1.4 Recapitulation and Conclusion	33
2.2 Agency in Other Research Traditions	37
2.2.1 Social-Cognitive Psychology	38
2.2.2 Life-Course Research	49
2.2.3 Organisational Behaviour Research on Proactivity . .	60
2.2.4 Recapitulation and Conclusion	82
2.3 Deriving a Working Definition of Agency	86
2.4 Chapter Summary	93
3 The Role of Agency in Professional Development	95
3.1 On the Development of Professional Expertise	96
3.1.1 Expert Performance at Work	96

3.1.2	Cognitive Adaption as Foundation of Expert Performance	99
3.1.3	Developing Expertise	103
3.1.4	Deliberate Practice	107
3.1.5	Recapitulation and Conclusion	112
3.2	Means of Professional Development	113
3.2.1	Learning from Experience	114
3.2.2	Learning from Social Interaction	118
3.2.3	Learning from Consulting Media	121
3.2.4	Learning from Institutionalised Learning Activities . .	123
3.2.5	Recapitulation and Conclusion	125
3.3	Agentic Actions Related to Professional Development	126
3.3.1	Crafting (Learning) Experiences at Work	128
3.3.2	Information and Feedback Seeking	131
3.3.3	Deliberate Engagement in Institutionalised Learning Activities	135
3.3.4	Recapitulation and Conclusion	139
3.4	Chapter Summary	141
4	Research Questions, Research Model, and Research Approach	147
4.1	Research Questions	147
4.2	Hypotheses and Research Model	149
4.3	Research Approach and Implementation	154
5	Study 1: Initial Insights Into Work Agency in the Domain of Geriatric Care Nursing	159
5.1	Methodology	160
5.1.1	Sample	160
5.1.2	Interview Procedure	162
5.1.3	Analysis	163
5.2	Findings	168
5.2.1	Expertise in Geriatric Care Nursing	168
5.2.2	Geriatric Care Nurses' Manifestations of Agency . . .	171
5.2.3	Relevant Organisational Context Factors	177

5.3	Discussion	180
5.3.1	Conceptualisation of Expert Performance in the Domain of Geriatric Care Nursing	180
5.3.2	Exercising Agency at Work in the Domain of Geriatric Care Nursing	181
5.3.3	Agentic Actions Relevant to Expertise Development in the Domain of Geriatric Care Nursing	185
5.3.4	Organisational Context Factors That Affect Geriatric Care Nurses' Engagement in Agentic Actions	186
5.3.5	Methodological Approach and Limitations	189
5.4	Chapter Summary	190
6	Study 2: Proposed Study Design, Instrument Development, and Pilot Study	203
6.1	Proposed Study Design and Sampling Strategy of the Main Study	204
6.2	Development of the Survey Instrument	207
6.2.1	Work Agency Facets	209
6.2.2	Agentic Actions	212
6.2.3	Organisational Context Factors	214
6.2.4	Expertise Measures	215
6.3	Purpose and Methodological Approach of the Pilot Study . . .	218
6.4	Findings of the Pilot Study	220
6.4.1	Participation, Sample Information, and Missing Values	220
6.4.2	Item and Scale Analyses	221
6.4.3	Testing Assumed Relationships	224
6.5	Discussion	227
6.6	Chapter Summary	231
7	Study 3: Work Agency and Its Effect on Expertise Development	233
7.1	Methodology	234
7.1.1	Sample	234
7.1.2	Data Entry, Preparation, and Screening	237
7.1.3	Instrument	239

7.1.4	Data Analyses	246
7.2	Findings	263
7.2.1	Measurement Model	263
7.2.2	PLS Analyses	282
7.3	Discussion	295
7.3.1	Psychometric Quality of the Survey Instrument	295
7.3.2	Test of the Research Model	296
7.3.3	Methodological Approach and Limitations	305
7.4	Chapter Summary	309
8	General Discussion and Conclusion	315
8.1	Answering the Research Questions	319
8.2	Implications for Further Research	330
8.3	Practical Implications	334
8.4	Chapter Summary	336
	Bibliography	339
	Appendix	373
A	Interview guideline	374
B	Category system	377
C	Items used in study 2 (part 1 to 4)	391
D	Items used in study 2 (part 5)	399
E	Expertise items used in study 3	402
F	CFA results: Original model (calibration sample)	405
G	CFA results: Adapted model (calibration sample)	409
H	CFA results: Adapted model (validation sample)	412
I	PLS-based evaluation of measurement model (calibration sample)	415
J	Path coefficients estimated with PLS-SEM (calibration sample)	418
K	PLS-based evaluation of measurement model (validation sample)	422
L	Path coefficients estimated with PLS-SEM (validation sample)	425
M	Partial effect sizes (validation sample)	429
