

INDEX

KEYNOTE LECTURES

- NEW Volkswagen – the MEB shaping the future of integrated e-mobility** 3
Christian Senger, Volkswagen AG
- Electric mobility, renewable energies and climate protection – challenges for our infrastructures** 5
Volker Blandow, TÜV SÜD AG

ENERGY SYSTEMS

- Transformation of the German energy and transport sector – a national analysis** 9
Dr. Kathrin Goldammer, O. Arnhold, M. Fleck, F. Grüger, J. Hartmann, O. Hoch, B. Schachler, Reiner Lemoine Institut gGmbH
- Climate benefit from electromobility: Will it happen automatically? Insights from the BMUB project ‘Ensuring climate benefit from electromobility’** 23
Peter Kasten, J. Bracker, F. Hacker, C. Timpe, Öko-Institut e. V.
- Impact of different charging strategies for electric vehicles on their grid integration** 41
Mathias Müller, F. Samweber, P. Leidl,
The Research Center for Energy Economics

INTRODUCTORY LECTURE

- Ultra fast charging – motivation, challenges and infrastructure requirements** 59
Dr. Daniel Gleyzes, BMW Group

GRIDS

- Integration of distributed flexibility into the power system – requirements and needs of the transmission grid** 63
Axel Kießling, TenneT TSO GmbH
- Grid integration of conductive and inductive high-power charging systems** 73
Prof. Dr. Bernd Engel, Institute for High Voltage Technology and Electric Power Systems – elenia, J. Wussow, J. Mummel, TU Braunschweig
- The aggregator as a missing link on the flexibility market** 75
Karsten Miede, Volkswagen Kraftwerk GmbH

SOLUTIONS I

- EV smart grid integration with mobile smart meters – a technical solution to a commercial problem** 85
Knut Hechtfisher, ubitricity Gesellschaft für verteilte Energiesysteme mbH
- Benefits of e-mobility for cross-sector energy management** 97
Ulrich Schmack, S. Weithmann, Digital Energy Solutions GmbH & Co. KG
- Renewable energies for electric mobility – an integrated solution for the electric transport of the future** 109
Dr. Jens Winkler, A. Beekmann, ENERCON GmbH

STANDARDIZATION

- Interoperability between charging infrastructure and electric vehicle** 113
Ursel Willrett, IAV GmbH
- Smart charging management for fleets and car pools** 127
Benjamin Kowatsch, D. Großmann, Vector Informatik GmbH
- Customer experience and sector linkage:
Why an holistic view is crucial for the success of electromobility** 139
Klaus Baumgärtner, BridgingIT GmbH

SOLUTIONS II

- Sector coupling in smart homes in an ‘All Electric Society’** 145
Detlef Beister, SMA Solar Technology AG
- BMW Digital Charging Service – the intelligent way to charge** 155
Simon Mareski, Dr. W. Prestl, C. Türel, BMW Group

MARKETS

- Together we can build a smart charging ecosystem** 163
Frank Geerts, Baerte de Brey, ElaadNL, The Netherlands
- Electromobility in China – a development pathway to climate protection, sustainable transportation and economic strength** 165
Sandra Retzer, Deutsche Gesellschaft für Internationale Zusammenarbeit (giz) GmbH, China
- Electric mobility in Japan – an European perspective** 173
Hartmut Stiller, business consultant e-mobility

TAGUNGSBERICHT

**Tagungsbericht – 2. Internationale ATZ-Fachtagung
Netzintegration der Elektromobilität**

177

Markus Schöttle

Netzintegration der Elektromobilität 2017
Mobilitätswandel konsequent entwickeln - 2.
Internationale ATZ-Fachtagung
Liebl, J. (Hrsg.)
2017, XI, 183 S. 64 Abb., Softcover
ISBN: 978-3-658-19292-1
