

Contents

1	Physics Basis of Organic Semiconductor Heterojunctions	1
1.1	Basic Concept of Heterojunctions	1
1.2	Theory of Heterojunctions	4
1.2.1	Diffusion Model	7
1.2.2	Emission Model	9
1.2.3	Tunneling Model	10
1.2.4	Emission Recombination Model	11
1.2.5	Tunneling Recombination Model	11
1.3	Energy Band Profiles of Heterojunctions	13
1.3.1	Profiles of Abrupt Anisotype <i>P/N</i> Heterojunctions	14
1.3.2	Profiles of Abrupt Anisotype <i>N/P</i> Heterojunctions	17
1.4	Basic Properties of Organic Heterojunctions	20
1.5	Brief Description of Organic Heterojunction Application in Organic Light-Emitting Diodes	31
	References	35
2	Electrical Properties of Organic Semiconductor Heterojunctions	37
2.1	Current–Voltage Characteristics	37
2.2	Capacitance–Voltage Characteristics	46
2.3	Charge Transport Properties	51
2.4	Charge Generation Properties	54
	References	57
3	Organic Semiconductor Heterojunctions as Charge Injector in Organic Light-Emitting Diodes	59
3.1	Basic Condition as Charge Injector	59
3.2	As Hole Injector for High-Efficiency Organic Light-Emitting Diodes	61
3.3	As Electron Injector for High-Efficiency Organic Light-Emitting Diodes	70

3.4 As Hole and Electron Injectors for High-Efficiency Organic Light-Emitting Diodes	77
References.	87
4 Organic Semiconductor Heterojunctions as Charge Generation Layer in Tandem Organic Light-Emitting Diodes	89
4.1 Basic Condition as Charge Generation Layer	89
4.2 Doped- <i>N</i> /Doped- <i>P</i> Heterojunction as Charge Generation Layer for High-Efficiency Tandem Organic Light-Emitting Diodes	92
4.3 <i>N/P</i> Bilayer Heterojunction as Charge Generation Layer for High-Efficiency Tandem Organic Light-Emitting Diodes	97
4.4 <i>N:P</i> Bulk Heterojunction as Charge Generation Layer for High-Efficiency Tandem Organic Light-Emitting Diodes	115
4.5 <i>N/N:P/P</i> Composited Heterojunction as Charge Generation Layer for High-Efficiency Tandem Organic Light-Emitting Diodes	118
References.	125
5 Tandem White Organic Light-Emitting Diodes Based on Organic Semiconductor Heterojunctions	127
5.1 Basic Structures of Tandem White Organic Light-Emitting Diodes	127
5.2 Fluorescence Tandem White Organic Light-Emitting Diodes	132
5.3 Phosphorescence Tandem White Organic Light-Emitting Diodes	136
5.4 Fluorescence/Phosphorescence Hybrid Tandem White Organic Light-Emitting Diodes	142
5.5 Applications of Tandem White Organic Light-Emitting Diodes in Display and Lighting	147
References.	150
Subject Index.	153

Organic Semiconductor Heterojunctions and Its
Application in Organic Light-Emitting Diodes

Ma, D.; Chen, Y.

2017, VIII, 153 p. 148 illus., Hardcover

ISBN: 978-3-662-53693-3
