

Contents

1 The Background and the Motivation	1
1.1 Introduction	1
1.2 The Objectives of Present Book	4
1.3 Arrangements of the Chapters	5
References.	6
2 An Overview of the Existing Literature and Its Linkages with the Present Book	7
2.1 Introduction	7
2.2 A Survey of Methodologies for Estimating Technical Efficiency and the Literature on Efficiency of Education Sector	8
2.2.1 The Survey of Methodologies for Estimating Technical Efficiency	8
2.2.2 Estimation of Technical Efficiency Score for Education Sector	17
2.3 Connections of Present Book with Existing Literature	28
References.	29
3 The Output Oriented Measures of Technical Efficiency and Its Determinants in Primary and Upper Primary Level of Education in India	33
3.1 Introduction	34
3.2 Methodology and Data Sources	36
3.2.1 Methodology for Estimation of Output Oriented Measure of Technical Efficiency	36
3.2.2 Methodology of Finding Out Determinants of Output Oriented Measure of Technical Efficiency Score of Each Group	39
3.2.3 The Data Sources	41

3.3	The Empirical Findings	42
3.3.1	Output Oriented Technical Efficiency Score at Primary Level of Education in India	42
3.3.2	Output Oriented Technical Efficiency Score (OUTTE) of Upper Primary Level of Education in India	44
3.3.3	Comparison of the Literacy Rate, Output Oriented Technical Efficiency and Educational Development Index in India	46
3.3.4	Analysis of Technology Closeness Ratio	51
3.4	Analysis of the Factors Behind the Variation of Output Oriented Technical Efficiency Score at Primary Level of Education in India	52
3.4.1	Factors Behind the Variation of Output Oriented Technical Efficiency Score (OUTTE) at Primary Level of Education for General Category States (GCS) in India	52
3.4.2	Factors Behind the Variation of Output Oriented Efficiency Score (OUTTE) at Primary Level of Education for Special Category States (SCS) and Union Territories (UT) in India	54
3.5	Factors Behind the Variation of Output Oriented Efficiency Score at Upper Primary Level of Education in India	55
3.5.1	Factors Behind the Variation of Output Oriented Technical Efficiency Score (OUTTE) at Upper Primary Level of Education for General Category States (GCS) in India	55
3.5.2	Factors Behind the Variation of Output Oriented Efficiency Score at Upper Primary Level of Education for Special Category States (SCS) and Union Territories (UT) in India.	56
3.6	Relative Sensitivity of Central Grant in Explaining Output Oriented Efficiency Score at Primary and Upper Primary Level of Education for General Category States (GCS), Special Category States (SCS) and Union Territories (UT) in India	57
3.7	Conclusions	57
	References.	58
4	The Input Oriented Technical Efficiency and Its Determinants in Primary and Upper Primary Level of Education in India.	59
4.1	Introduction	59
4.2	Methodology and Data Source	61
4.2.1	Measurement of Input Oriented Technical Efficiency (TE)	61
4.2.2	Data Source.	61

4.3	The Empirical Findings	61
4.3.1	Input Oriented Technical Efficiency Score (INPTE) at Primary Level of Education in India	62
4.3.2	Input Oriented Technical Efficiency Score (INPTE) of Upper Primary Level of Education in India	64
4.3.3	Radial and Slack Movements in Inputs	66
4.4	Analysis of the Factors Behind the Variation in Input Oriented Technical Efficiency Scores of Primary and Upper Primary Level of Education in India	81
4.4.1	Analysis of the Factors Behind the Variation in Input Oriented Technical Efficiency Scores of Primary Level of Education in India	82
4.4.2	Analysis of the Factors Behind the Variation in Input Oriented Technical Efficiency Scores of Upper-Primary Level of Education in India.	83
4.5	Conclusion	85
	Reference	87
5	The Summary and the Policy Suggestions	89

Efficiency of Elementary Education in India
Empirical Evidence Using a Nonparametric Data
Envelopment Approach

Ghose, A.

2017, XIII, 94 p. 3 illus., Softcover

ISBN: 978-81-322-3659-7
