1	Introduction	1
1.1	General Information Regarding Serbia	1
1.1.1	Geographic Position	1
1.1.2	Topography	1
1.1.3	Hydrology	4
1.1.4	Soil	11
1.2	A Short History of Soil Science and Soil Survey	14
	References	23
2	Soils as Natural Resources	25
2.1	Soil Types and Their Production Value	27
2.2	Soil Under Agriculture	29
	References	29
3	Climate	31
3.1	Temperature	31
3.2	Precipitation	33
	References	39
4	Vegetation	41
4.1	Forest Vegetation	42
4.2	Scrub Vegetation	48
4.3	Herbaceous Vegetation	49
	References	52
5	Geology	55
5.1	Geomorphology	55
5.1.1	Dinarides	55
5.1.2	Vardar Zone	57
5.1.3	Serbian Massif	58
5.1.4	Carpatho-Balkanides	58
5.1.5	Pannonian Basin	59
5.2	Lithology	59
5.2.1	The Pannonian Basin and Peripannonian Rim Region	62
5.2.2	The Mountainous Region	66
5.3	Soil Mineralogy	78
	References	85
6	Soil Classification	87
6.1	A Historical Overview of Soil Classification	87
6.2	Soil Map Research	88
6.3	Actual Soil Classification	88

6.3.1	Definitions and Labelling of Genetic Soil Horizons	89
6.3.2	Soil Classification	90
	References	99
7	Order of Automorphic Soils	101
7.1	Class I: Undeveloped Soils with (A)-C or (A)-R Soil Horizon Sequence	101
7.1.1	Lithosol	101
7.1.2	Regosol	102
7.1.3	Arenosol	104
7.1.4	Colluvial Soils (Colluvium)	105
7.2	Class II: Humus-Accumulative Soils with A-C, A-R or A-C-R Soil Horizon Sequence	107
7.2.1	Ranker.	107
7.2.2	Rendzina	113
7.2.3	Chernozem	117
7.2.4	Vertisol	122
7.2.5	Kalkomelanosol (Limestone-Dolomite Black Soil)	125
7.3	Class III: Cambic Soils with A-(B)-C or A-(B)-R Soil Horizon Sequence	128
7.3.1	Eutric Cambisol	128
7.3.2	Dystric Cambisol.	131
7.3.3	Kalkocambisol (Brown Soil on Limestone and Dolomite).	135
7.3.4	Red Soil (<i>Terra rossa</i>)	136
7.4	Class IV: Eluvial-Illuvial Soils of A-E-Bt-C or A-E-Bt-R Soil Horizon Sequence	139
7.4.1	Luvisol (Luvic Soil)	139
7.4.2	Podzol	142
7.4.3	Brown Podzolic Soil (Brunipodzol)	143
7.5	Class V: Anthropogenic Soils with P-C Soil Horizon Sequence	145
7.5.1	Rigosol	145
7.5.2	Hortisol	145
7.6	Class VI: Technogenic Soils (Technosols).	145
7.6.1	Soil of Disposal Sites (Deposol)	145
	References	154
8	Order of Hydromorphic Soils	157
8.1	Class I: Soils with Stagnation of Rainwater with A-Eg-Bg-C Soil Horizon Sequence	157
8.1.1	Pseudogley	157
8.2	Class II: Initial Hydromorphic Soils with I-II-III-IV..., or (A)-G, or (A)-C Horizon Sequence.	160
8.2.1	Fluvial or Alluvial (Fluvisol)	160
8.3	Class III: Semi-gleyic Soils with A-C-G Soil Horizon Sequence	163
8.3.1	Fluvial Meadow (Humofluvisol)	163
8.4	Class IV: Hypogleyic Soils with A-G Soil Horizon Sequence	164
8.4.1	Wetland Black Soil (Humogley)	164
8.4.2	Wetland gley (Eugley)	165
8.5	Class V: Peat Soils with T-G Soil Horizon Sequence	168
8.5.1	Low Moor Peat (Planohistosol)	169
8.5.2	High Moor Peat (Acrohistosol)	171
8.5.3	Transient Peat (Plano-Acrohistosol)	172

8.6	Class VI: Anthropogenic Soils with P-G Horizon Soil Sequence	172
8.6.1	Rigosol	172
8.6.2	Hydroameliorated Soil	173
	References	173
9	Order of Halomorphic and Subaquatic Soils	175
9.1	Order of Halomorphic Soils	175
9.2	Class I: Salty Soils with Asa-G or Asa-Cg Soil Horizon Sequence.	175
9.2.1	Solonchak	175
9.3	Class II: Alkalized Soil with A/E-Btna-C Soil Horizon Sequence.	176
9.3.1	Solonetz.	176
9.4	Order of Subaquatic Soils	178
9.5	Class I: Initial Subaquatic Soils with (A)-CG Soil Horizon Sequence	179
9.5.1	Protopedon.	179
9.6	Class II: Humic Subaquatic Soils with A-C or A-G Soil Horizon Sequence	180
9.6.1	Gyttja	180
9.6.2	Dy.	180
9.6.3	Sapropel.	180
9.7	Class III: Anthropogenic Subaquatic Soils with P-C or P-G Soil Horizon Sequence	180
9.7.1	Drained Gyttja	180
9.7.2	Drained Sapropel.	180
	References	180
10	Land Use.	181
10.1	Current State and Trends of Land Use	181
10.2	Changes in the Use of Agricultural Soil	184
	References	189
11	Environmental Issues	191
11.1	Soil Degradation	191
11.1.1	Water and Eolian Erosion.	191
11.1.2	Soil Acidification	192
11.1.3	Depletion of Organic Matter in Soils	195
11.1.4	Soil Salinization	196
11.1.5	Mining Activity and Industry Effects on Soils.	197
11.1.6	Disposal of Industrial and Municipal Waste	198
11.2	Soil Pollution	201
11.2.1	Heavy Metals	201
11.2.2	Pesticides	214
11.2.3	Radionuclides	215
11.3	Climate Change.	217
