Contents

1 Introduction 1
- 1.1 Distribution of Univariate Continuous Distribution 1
- 1.2 Moment Generating and Characteristic Functions 1
- 1.3 Some Reliability Properties 2
- 1.4 Cauchy Functional Equations 3
- 1.5 Order Statistics 4
- 1.6 Record Values 5
- 1.7 Generalized Order Statistics 10
- 1.8 Lower Generalized Order Statistics (Lgos) 12
- 1.9 Some Useful Functions 15

2 Some Continuous Distributions 17
- 2.1 Beta Distribution 17
- 2.2 Cauchy Distribution 18
- 2.3 Chi-Squared Distribution 19
- 2.4 Exponential Distribution 20
- 2.5 F-Distribution 22
- 2.6 Gamma Distribution 23
- 2.7 Gumbel Distribution 24
- 2.8 Inverse Gaussian (Wald) Distribution 25
- 2.9 Laplace Distribution 26
- 2.10 Logistic Distribution 27
- 2.11 Lognormal Distribution 28
- 2.12 Normal Distribution 29
- 2.13 Pareto Distribution 30
- 2.14 Power Function Distribution 31
- 2.15 Rayleigh Distribution 32
- 2.16 Student's t-Distribution 33
- 2.17 Weibull Distribution 33

3 Characterizations of Distributions by Independent Copies 35
3.1 Characterization of Normal Distribution 35
3.2 Characterization of Levy Distribution 44
3.3 Characterization of Wald Distribution 45
3.4 Characterization of Exponential Distribution 46
3.5 Characterization of Symmetric Distribution 48
3.6 Charactetrization of Logistic Disribution 49
3.7 Characterization of Distributions by Truncated Statistics 49
3.7.1 Characterization of Semi Circular Distribution 51
3.7.2 Characterization of Lindley Distribution 51
3.7.3 Characterization of Rayleigh Distribution 53

4 Characterizations of Univariate Distributions by Order Statistics 55
4.1 Characterizations of Student's t Distribution 55
4.2 Characterizations of Distributions by Conditional Expectations (Finite Sample) 59
4.3 Characterizations of Distributions by Conditional Expectations (Extended Sample) 61
4.4 Characterizations Using Spacings 62
4.5 Characterizations of Symmetric Distribution Using Order Statistics 65
4.6 Characterization of Exponential Distribution Using Conditional Expectation of Mean 66
4.7 Characterizations of Power Function Distribution by Ratios of Order Statistics 67
4.8 Characterization of Uniform Distribution Using Range 69
4.9 Characterization by Truncated Order Statistics 71

5 Characterizations of Distributions by Record Values 73
5.1 Characterizations Using Conditional Expectations 73
5.2 Characterization by Independence Property 76
5.3 Characterizations Based on Identical Distribution 82

6 Characterizations of Distributions by Generalized Order Statistics 89
6.1 Characterizations by Conditional Expectations 89
6.2 Characterizations by Equality of Expectations of Normalized Spacings 95
6.3 Characterizations by Equality of Distributions 95
