Contents

1 Influx of International Talents in the United States: An Introduction 1
1.1 Influx of International Talents to the US 1
1.2 Research on Understanding Chinese Students in the US 4
1.3 Overview of This Work 5
References 7

Part I Epistemological Developmental Theories and Their Applications

2 Epistemological Developmental Theories 11
2.1 Conceptualization of Personal Epistemology 11
2.2 Perry's Theory 13
2.3 Extension of Epistemological Development Frameworks After Perry's Theory 16
2.4 Synthesis of Theoretical Frameworks 22
References 26

3 Measurement of Epistemological Development 29
3.1 Qualitative Measures of Epistemological Development 29
3.2 Quantitative Measures of Epistemological Development 31
References 33

4 Personal Epistemology in Application 35
4.1 Application of Epistemological Developmental Theories in Engineering Students 35
4.2 Application of Epistemological Developmental Theories in Graduate Students 36
4.3 Application of Epistemological Developmental Theories in Chinese Students 37
References 39

Part II A Research Design for Measuring Epistemological Development

5 Developing a Valid Survey for Personal Epistemology 43
5.1 Introduction. 43
5.2 Background. 44
5.3 Survey Construction 45
5.4 Content Validation 47
5.4.1 Data Collection and Analysis. 48
5.4.2 Results 49
5.5 Structural Validation. 55
5.5.1 Data Collection and Analysis. 55
5.5.2 Results 55
5.6 Discussion 58
5.7 Conclusion 59
References 59

6 A Mixed-Method Research Design 61
References 63

Part III A Quantitative Exploration of Chinese Engineering Doctoral Students' Epistemological Development

7 Overall Profiles of Epistemological Development 67
7.1 Background. 67
7.2 Method. 69
7.2.1 Data Collection 69
7.2.2 Data Analysis 78
7.3 An Overall Profile of Epistemological Stages. 80
7.4 Discussion 82
7.5 Conclusion 84
References 85

8 Factors Related to Epistemological Development 87
8.1 Academic Progress. 87
8.1.1 Overall Picture. 88
8.1.2 ANOVA 89
8.2 Places of Origin. 90
8.3 Prior Master's Education. 91
8.4 Enrolled Universities 92
8.5 Discussion 94
8.6 Conclusion 95
References 96

Part IV A Qualitative Exploration of Chinese Engineering Doctoral Students' Epistemological Thinking Styles

9 Stories of Chinese Engineering Doctoral Students' Epistemological Thinking Styles 99
9.1 Background 99
9.2 Methods 101
9.2.1 Data Collection 101
9.2.2 Data Analysis 104
9.3 Results 107
9.3.1 The Overall Picture 107
9.3.2 The Story of Dualistic Thinking 113
9.3.3 The Story of Multiplistic Thinking 115
9.3.4 The Story of Relativistic Thinking 118
9.3.5 The Story of Commitment to Relativistic Thinking 131
9.4 Discussions 141
9.5 Conclusion 143
References 143

10 Factors Associated with Advanced Epistemological Thinking 145
10.1 People Factors 146
10.2 Experiential Factors 150
10.3 Contextual Factors 152
10.4 Discussion 153
10.5 Conclusion 154
References 154

11 Lessons Learned and Future Directions 155
11.1 Lessons Learned 155
11.1.1 Impact of This Research 157
11.1.2 Applications of Perry's Theory Among Engineering Students 157
11.1.3 Extension of Perry's Theory 158
11.1.4 Understanding of Chinese Doctoral Students' Epistemological Development 159
11.1.5 Explorations of Factors Associated with Relativistic Thinking 159
11.2 Future Directions 160
11.3 Conclusion 162
References 163

Appendix A: Information Page to the Experts and the Expert Rating Form 165

Appendix B: Complete Survey with the Modified ZCDI and the KCM Subscale 169

Appendix C: Demographic Survey 173

Appendix D: Interview Protocol 177

Appendix E: Dualistic Thinking-Demonstration Codes 181

Appendix F: Multiplistic Thinking-Demonstration Codes 183

Appendix G: Relativistic Thinking-Demonstration Codes 185

Appendix H: Commitment-Demonstration Codes 187

Appendix I: Relativistic Thinking-Factor Codes 189
