

Contents

| | | |
|----------|---|-----------|
| 1 | Introduction | 1 |
| 1.1 | Background and Meaning of the Research | 1 |
| 1.2 | Research and Research Frontiers | 3 |
| 1.2.1 | The Method to Power Flow Calculation with Uncertainty | 4 |
| 1.2.2 | Economic Dispatch Model and Its Solution | 7 |
| 1.2.3 | Economic Dispatch Issues Considered the Security Constraints | 11 |
| 1.2.4 | Economic Dispatch Problems Considering Wind Power Uncertainty | 12 |
| 1.3 | Limits of Existing Works and Research Motivation for This Book | 17 |
| | References | 18 |
| 2 | Mathematics for Interval Algebra and Optimization | 29 |
| 2.1 | Definition of Intervals | 29 |
| 2.2 | Solutions of Algebraic Equations with Right-Hand Intervals | 30 |
| 2.2.1 | Linear Equations with Right-Hand Intervals Using Kraw Operator Iteration Method with Preconditioner | 30 |
| 2.2.2 | Nonlinear Equations with Right-Hand Intervals Using Optimality-Based Method | 35 |
| 2.2.3 | Optimality-Based Bounds Tightening Method | 37 |
| 2.3 | Optimization Solutions Based Intervals | 38 |
| 2.3.1 | Optimization Solutions with Right-Hand Intervals | 38 |
| 2.3.2 | Traditional Interval Robust Optimization Method | 48 |
| 2.3.3 | Adaptive Interval Robust Optimization Method | 50 |
| 2.3.4 | Two-Stage Interval Robust Optimization Method | 52 |
| 2.4 | Summary | 57 |
| | References | 57 |

| | | |
|----------|--|-----|
| 3 | The Research and Application of Interval Power Flow | 59 |
| 3.1 | Summary | 59 |
| 3.2 | The Application of Interval Power Flow | 61 |
| 3.2.1 | The Interval DC Power Flow | 61 |
| 3.2.2 | Interval AC Power Flow | 65 |
| 3.2.3 | Interval Radial Power Flow | 81 |
| 3.2.4 | Interval DC Power Flow with Constraints | 90 |
| 3.3 | Chapter Summary | 98 |
| | References | 98 |
| 4 | Interval Economic Dispatch and the Tackling of Infeasible Model | 101 |
| 4.1 | Introduction | 101 |
| 4.2 | Interval Economic Dispatch Optimization Model | 102 |
| 4.2.1 | Modeling the Interval Economic Dispatch | 102 |
| 4.2.2 | Numerical Results and Discussion | 105 |
| 4.3 | Methods for Infeasible Economic Dispatch | 108 |
| 4.3.1 | Optimal Curtailment Model | 109 |
| 4.3.2 | Exact Penalty Function Model | 117 |
| 4.4 | Conclusions | 123 |
| | References | 124 |
| 5 | Robust Interval Economic Dispatch and the Price of Robustness | 125 |
| 5.1 | Introduction | 125 |
| 5.2 | The Real-Time Robust Interval Economic Dispatch Model | 127 |
| 5.2.1 | The Adaptive Robust Interval Economic Dispatch Model Considering Uncertain Wind Power Output | 127 |
| 5.2.2 | The Adaptive Robust Interval Economic Dispatch Model Considering the Price of Robustness | 130 |
| 5.2.3 | Simplification of the Proposed Model | 131 |
| 5.2.4 | Numerical Results | 135 |
| 5.3 | The Day-Ahead Robust Interval Economic Dispatch Model | 140 |
| 5.3.1 | The Two-Stage Robust Interval Economic Dispatch Model Considering the Network Topology Control | 140 |
| 5.3.2 | Numerical Results | 142 |
| 5.4 | Discussion | 147 |
| 5.4.1 | The Adaptive Robust Interval Economic Dispatch Model Containing Prohibited Zones | 147 |
| 5.4.2 | Two-Stage Robust Interval Economic Dispatch Model Considering Reliability Constraints | 148 |
| 5.4.3 | Multi-solution Problem and Goal Programming of Two-Stage Robust Interval Optimization Model | 149 |
| 5.5 | Summary | 149 |
| | References | 150 |

- 6 Acceleration Strategies for Large-Scale Economic Dispatch**
- Models** 153
- 6.1 Introduction 153
- 6.2 Redundant Security Constraints Fast Identification 154
 - 6.2.1 Redundant Constraints Description and Definition 154
 - 6.2.2 Greedy-Algorithm Based Fast Relaxation Identification . . . 157
 - 6.2.3 Inactive Constraint Elimination of Rubost Optimization Models. 160
 - 6.2.4 Simulation Analysis 163
- 6.3 Decomposition Method for Multi-period Economic Dispatch 169
 - 6.3.1 Mathematical Modeling and Theoretical Method 169
 - 6.3.2 Simulation Analysis 180
- 6.4 Conclusion 184
- References. 184
- 7 Conclusions and Prospects** 187
- Appendix A** 191
- Appendix B** 197
- Appendix C** 199
- Appendix D** 207
- Appendix E** 213

Power System Operation with Large Scale Stochastic
Wind Power Integration
Interval Arithmetic Based Analysis and Optimization
Methods

Ding, T.

2017, XVII, 217 p. 70 illus., 64 illus. in color., Hardcover

ISBN: 978-981-10-2560-0
