

Contents

Ethics-Based-Engineering: Importance of Academy's Initiative Toward Human Security and Well-Being	1
Hideaki Koizumi	
Scalable Medical Devices: Personal and Social	9
Ashutosh Sabharwal and Ashok Veeraraghavan	
Therapeutic Platforms for Ischemic and Traumatic Brain Injuries Across National-Level Neuroimaging Grids	15
Prasun K. Roy, Suhela Kapoor, Vikas Pareek and V. P. Subramanyam Rallabandi	
Next Generation Devices and Technologies Through Regenerative Engineering	21
Cato T. Laurencin and Lakshmi S. Nair	
Rising Healthcare Spending: Is Technology the Solution?	29
Pierre-Etienne BOST	
Big Data Analytics and Molecular Medicine	37
Kalyanasundaram Subramanian	
Can Life Sciences Progress Without Engineering?	43
Sanghamitra Bandyopadhyay	
Evaluation of BMP-2 Mediated Bone Formation Using Enzymatically Crosslinkable Injectable Hydrogels: An In Vivo Study Using Transgenic Fluorescent Reporter Mouse Model	49
Shalini V. Gohil and Lakshmi S. Nair	
Supporting the Diagnosis of Childhood Pneumonia in Low Resource Settings	53
Pavan Dadlani, Ercan Gigi, Ernest Laman, Eefje Aarts and Helle Ullerup	

Adoption of Personalized Medicine: Towards Identifying Critical Changes	55
Subhas Chandra Misra and Sandip Bisui	
Biophysics-Based Markers Surpassing Biochemical Markers in Screening of Ageing-Related Neurodegeneration and Cognitive Impairment	59
Rajiv Ramaswamy, Rajesh Khanna and Prasun Roy	
Author Index	63

Healthcare Engineering

Proceedings of CAETS 2015 Convocation on Pathways
to Sustainability

Shorey, R.; Ghosh, P. (Eds.)

2017, XVI, 63 p. 13 illus., Hardcover

ISBN: 978-981-10-3110-6
