

Contents

Application Research of Ant-Tracking Technology Based on Spectral Decomposition in Xingdong Mine	1
Jiangong Liu, Yanhui Wu, Peng Wang, Jia Song, Gouju Wang, Wentao Ma and Wei Wang	
Definition and Improved Algorithm of All-Time TEM Apparent Resistivity	11
Fei Li, Shangxian Yin, Demin Liu, Yong Han, Shuai Hua and Peng Chen	
The Fast Imaging of Metal Pipe Exploration Using TEM Method	17
Zhaoqiao Zhang, Shucui Liu, Yong Zhang, Longjin Zheng and Lian Liu	
Absorbing Quality Factor Attribute for Recognising Ordovician Cave and Underground River System in Tahe Oilfield	25
Yuxin Luo, Ruizhao Yang, Pengpeng Li, Duo Gao and Chao Liu	
Research on Induced Polarization Relaxation Properties of Sand Sample	35
Qian Guo, Lichao Nie, Shucui Li, Bin Liu, Chuanwu Wang and Mingzhen Tian	
The Trust Region Method for Time-Domain Full Waveform Inversion	45
Suping Peng, Peng Lin, Wenfeng Du and Yongxu Lu	
Research on the Channel Wave Field Characters of Goaf in Coal Mine and Its Application.	57
Feng Lei, Wei Wang, Songying Li, Xiaoshuai Yao, Jiwen Teng and Xing Gao	

The Study of Well Logging Sedimentary Microfacies in Tengge'er Formation Baiyinchagan Depression	71
Xinhu Li, Qiling Wang and Wenhui Ma	
Improvement on AVO Equations in VTI Media	81
Xiaoting Li, Hongwei Wang, Suping Peng, Wenfeng Du and Yingchuan Sun	
Determination of the Conversion Point for P-SV Wave of Horizontal Interface Under Rugged Surface.	87
Liang Sun, Suping Peng, Dengke He and Chao Sun	
The Study of Anti-noise Immunity for Electromagnetic Method Based on m Pseudo-random Sequence.	91
Xianxiang Wang and Juzhi Deng	
Pit-Surface Electromagnetic Receiver	97
Kai Chen, Haifeng Wang, Ming Deng, Hong Chen, Di Zeng and ShuangChao Ge	
Three-Dimensional Resistivity and Induced Polarization Data Inversion with Image Focusing	107
Yixin Ye, Zhiyong Zhang, Zelin Li and Yong Zhao	
A Study of the Southern Segment of the Greater Khingan Range Mineralization Belt, China, Based on the 3D Parallel Inversion of Potential Data	113
Wuyang Li, Jian Zhang, Daeung Yoon and Wei Lin	
A Fast Topographic Correction Method for TEM Data	119
Guoqiang Xue, Weiying Chen, Jiangwei Cui and Shu Yan	
Distinguishing Multi-layer Mined-Out Area Through TEM	127
Shu Yan, Guoqiang Xue and Weizhong Qiu	
Bias in Transient Electromagnetic Method Due to Non-rectangular Loop.	135
Nannan Zhou, Guoqiang Xue, Dongyang Hou, Huasen Zhong, Hai Li, Jiangwei Cui and Kang Chen	
The Shielding Effect of Low Resistivity Layer in TEM	145
Dongyang Hou, Guoqiang Xue, Nannan Zhou and Shu Yan	
Research Progress in High Power Multi-functional Borehole-Ground Electromagnetic Transmitter for Metal Exploration	151
Meng Wang, Sheng Jin, Ming Deng, Bo Wang, Zheng Xiang and Ziheng Zhao	

Research on Investigation Characteristic of Multicomponent Induction Logging in Mineral Logging	161
Jian Wang, Hao Chen and Xiuming Wang	
The Extraction of TEM Response from Pseudo Random Binary Sequence Source EM Data	167
Hai Li, Guoqiang Xue, Pan Zhao, Huasen Zhong and Nannan Zhou	
Application of Ant Tracking Technique in Fault Interpretation of YC Coal Mine.	175
Dongyang Liu, Suzhen Shi, Wenfeng Du and Tailang Zhao	
Earthquake Detection with Seismic Exploration Method	185
Guanghe Liang	
Lamellate Layer Convergence Algorithm Based on the Magnetotelluric Equivalence Principle	195
Rongjiang Tang, Xuben Wang, Lu Gan and Juntao Zhang	
Discussions on Resolution of Different TDEM Survey Techniques for Detecting Water-Bearing Structures	205
Lei Yang and R.W. Groom	
A Simple Apparent Resistivity Definition for Modified Central-Loop TEM System	221
Yunfei Lu, Guoqiang Xue, Xiu Li and Zhipeng Qi	
The Response of In-loop Transient Electromagnetic Configuration	233
Wen Chen, Guoqiang Xue and Dongyang Hou	
Application of Multiple Geophysical Methods to Prospect Concealed Ores Beneath Quaternary Cover: A Case Study from a Copper-Polymetallic Deposit	243
Yinsheng Meng, Ruizhong Zhang, Ruide Liu, Tianliang Lin and Wenguo Wang	
Accurate Recognition of Underwater Riprap of Rivers and Lakes Based on the Seismic Imaging	251
Fuyu Jiang, Wenkai Chang and Leilei Xie	
Application of Seismic Imaging Method in Detecting the Complex Geological Hazards	257
Hua Zhang, Hui Yang and Luoyi Zhang	
Theoretical Study on Tensor Controllable Source Electromagnetic Field Distribution Law	265
Ruodi Yang	

**An Optimization Method for Interpreting ERT Data Based
on Groundwater Numerical Modeling (Which Data Polarization
Mode Should Be Used in 2D Inversion) 271**
Xuelan Li, Diqun Li, Bo Yuan and Yanhui Dong

**Surveying Karst Caves Under 14 Tunnels Bottom
on Gui-Guang High-Speed Railway 279**
Shihang Zhong, Rong Wang and Zefeng Wang

Technology and Application of Environmental and
Engineering Geophysics
Selected Papers of the 7th International Conference on
Environmental and Engineering Geophysics,
ICEEG-Beijing 2016
Di, Q.; Xue, G.; Xia, J. (Eds.)
2017, VIII, 283 p. 174 illus., 130 illus. in color.,
Hardcover
ISBN: 978-981-10-3243-1
