

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
<b>2</b>	<b>Discrete Nano Biomaterials</b>	<b>3</b>
2.1	Introduction	3
2.2	Synthesis Approaches	4
2.2.1	The Bottom-up Approach	4
2.2.2	The Top-down Approach	5
2.3	Materials for Polymeric Nanoparticles and Their Applications	5
2.3.1	Naturally Occurring Polymers	6
2.3.2	Synthetically Obtained Polymers	7
2.4	Applications of Polymeric Nano-Particles/Biomaterials	8
2.4.1	Drug Delivery and Transfection	8
2.4.2	For Incorporation in Medical Implants	13
2.4.3	Photothermal Nanotherapeutics and Nanodiagnostics	13
2.4.4	Lipid-Based Nanotherapeutics for Nucleic Acid Delivery	14
2.4.5	Nanotherapeutics for Chemotherapy	15
2.4.6	Quantum Dots for Traceable Therapeutic Delivery	17
2.4.7	Strategies to Improve Implant Tolerance	19
<b>3</b>	<b>Anisotropic Nano-Systems</b>	<b>21</b>
3.1	Introduction	21
3.2	Synthesis of Anisotropic Nanoparticles	27
3.2.1	Seed Mediated Method	27
3.2.2	Photochemical Synthesis	29
3.2.3	Polyol Synthesis	30
3.2.4	Synthesis by Using Template	31

3.3	Assembly of Anisotropic Nanoparticles . . . . .	31
3.3.1	Template Based Assembly of NPs . . . . .	32
3.3.2	Self-assembly by Solvent Evaporation Method . . . . .	32
3.3.3	Self-assembly of ANPs by van der Waals Forces . . . . .	33
3.3.4	Self-assembly of Particles by Nature of Bonding . . . . .	33
3.4	Applications . . . . .	37
3.4.1	Catalytic Applications of Anisotropic Nanoparticles . . . . .	37
3.4.2	Biosensor and Bioprobes. . . . .	38
3.4.3	Photothermal Therapy for Cancer . . . . .	38
3.5	Conclusion . . . . .	39
<b>4</b>	<b>Nano-Films/Coated/Layered Systems . . . . .</b>	<b>41</b>
4.1	Introduction . . . . .	41
4.2	Layer-by-Layer (LbL). . . . .	41
4.3	Methods of LbL Assemblies. . . . .	43
4.3.1	Dipping. . . . .	43
4.3.2	Spin Coating . . . . .	43
4.3.3	Spray Assisted LbL. . . . .	43
4.4	Template Assisted LbL Assembly . . . . .	44
4.4.1	LbL Assisted Nanotubes Using Nanoporous Templates . . . . .	44
4.5	Polyelectrolyte Capsules as Multifunctional Platforms . . . . .	45
4.6	Polyelectrolyte Thin Film Based Electrodes and Implants . . . . .	46
4.7	Applications of Nano-Films/Coated/Layered Implants . . . . .	47
4.7.1	Nano-/Structured Electrodes for Neural Interfaces. . . . .	47
4.7.2	Nano-Coating and Nano-Texturing on Existing Implant Surfaces . . . . .	50
4.7.3	Nano-Scaffolds for Tissue Engineering and Therapeutics . . . . .	52
<b>5</b>	<b>Nanocomposites . . . . .</b>	<b>55</b>
5.1	Introduction . . . . .	55
5.2	Applications of Nanocomposites. . . . .	55
5.2.1	Nano-Composites for Cellular Imaging and Therapy . . . . .	55
5.2.2	Nano-Composites for Advanced Drug Delivery . . . . .	57
5.2.3	Nano-Composites as Bio Mimicking Substrates . . . . .	58
5.2.4	Nano-Composites for Applications in Tissue Engineering. . . . .	62
<b>6</b>	<b>Conclusion . . . . .</b>	<b>67</b>
	<b>References . . . . .</b>	<b>69</b>

Frontiers in Nano-therapeutics

Tasnim, N.; Nair, B.G.; Sai Krishna, K.; Kalagara, S.;

Narayan, M.; Noveron, J.C.; Joddar, B.

2017, XVI, 82 p. 28 illus., 12 illus. in color., Softcover

ISBN: 978-981-10-3282-0
