

Contents

1	Measures of Noncompactness in the Space of Continuous and Bounded Functions Defined on the Real Half-Axis	1
	Józef Banaś, Nelson Merentes and Beata Rzepka	
2	Measures of Noncompactness and Their Applications	59
	Mohammad Mursaleen, Syed M.H. Rizvi and Bessem Samet	
3	On Some Results Using Measures of Noncompactness	127
	Eberhard Malkowsky and Vladimir Rakočević	
4	Space of Functions with Growths Tempered by a Modulus of Continuity	181
	I.J. Cabrera, J. Harjani, B. López and K.B. Sadarangani	
5	Measure of Noncompactness in Functional Fractional Calculus	215
	Ehsan Pourhadi	
6	Measures of Weak Noncompactness and Fixed Points	247
	Agnieszka Chlebowicz and Mohamed-Aziz Taoudi	
7	The Class of F-Contraction Mappings with a Measure of Noncompactness	297
	Calogero Vetro and Francesca Vetro	
8	On the Measure of Noncompactness in Banach Spaces and Application to the Theory of Differential and Integral Equations	333
	Neda Khodabakhshi and S. Mansour Vaezpour	
9	Partial Hadamard-Stieltjes Fractional Integral Equations in Banach Spaces	375
	Saïd Abbas, Mouffak Benchohra and Johnny Henderson	

10	On the Aronszajn Property for Differential Equations of Fractional Order in Banach Spaces.	393
	Aldona Dutkiewicz	
11	On the Qualitative Behaviors of Nonlinear Functional Differential Systems of Third Order	421
	Cemil Tunç	
12	On the Approximation of Solutions to a Fixed Point Problem with Inequality Constraints in a Banach Space Partially Ordered by a Cone	441
	Mohamed Jleli, Erdal Karapinar and Bessem Samet	
13	A Short Survey on Dislocated Metric Spaces via Fixed-Point Theory	457
	Erdal Karapinar	
	Index	485

Advances in Nonlinear Analysis via the Concept of
Measure of Noncompactness

Banaś, J.; Jleli, M.; Mursaleen, M.; Samet, B.; Vetro, C.
(Eds.)

2017, XIII, 487 p., Hardcover

ISBN: 978-981-10-3721-4
