

# Contents

## Part I General

<b>Introduction to Combustion for Power Generation and Transportation</b> . . . . .	3
Avinash Kumar Agarwal, Santanu De, Ashok Pandey and Akhilendra Pratap Singh	

## Part II Combustion: Experiments and Simulations

<b>A Review on Autoignition in Laminar and Turbulent Nonpremixed Flames</b> . . . . .	11
Sanjeev Kumar Ghai and Santanu De	
<b>Langevin Simulation of Turbulent Combustion</b> . . . . .	39
A.G. Nouri, S. Sammak, P.H. Pisciuneri and P. Givi	
<b>Numerical Modeling of MILD Combustion at High Pressure to Predict the Optimal Operating Conditions</b> . . . . .	55
V. Mahendra Reddy and William L. Roberts	
<b>Investigation of Forward and Reverse Flow CDC Combustors</b> . . . . .	77
Vaibhav K. Arghode and Ashwani K. Gupta	
<b>Global and Local Viewpoints to Analyze Turbulence-Premixed Flame Interaction</b> . . . . .	101
Swetaprovo Chaudhuri	

## Part III Gas Turbines

<b>Pulse Combustor Driven Pressure Gain Combustion for High Efficiency Gas Turbine Engines</b> . . . . .	127
Joel C. Lisanti and William L. Roberts	

<b>Lean Blowout (LBO) Prediction Through Symbolic Time Series Analysis</b> . . . . .	153
Swarnendu Sen, Soumalya Sarkar, Rajendra R. Chaudhari, Achintya Mukhopadhyay and Asok Ray	
<b>Theoretical Formulation for the Investigation of Acoustic and Entropy-Driven Combustion Instabilities in Gas Turbine Engines</b> . . . . .	169
Balasubramanian Singaravelu, Sathesh Mariappan and Avijit Saha	
<b>Chronology of Dynamic Stall Characteristics Through Simultaneous PIV and Surface Pressure Measurements</b> . . . . .	197
Deepakkumar M. Sharma and Kamal Poddar	
<b>Part IV Internal Combustion Engines</b>	
<b>Lasers and Optical Diagnostics for Next Generation IC Engine Development: Ushering New Era of Engine Development</b> . . . . .	211
Avinash Kumar Agarwal and Akhilendra Pratap Singh	
<b>Exergy Destruction Study on Small DI Diesel Engine</b> . . . . .	261
Veena Chaudhary and R.P. Gakkhar	
<b>Impact of Fuel Premixing Ratio and Injection Timing on Reactivity Controlled Compression Ignition Engine</b> . . . . .	277
Mohit Raj Saxena and Rakesh Kumar Maurya	
<b>Exergy Analysis of Hydrogen-Fueled Spark Ignition Engine Based on Numerical Investigations</b> . . . . .	297
Saket Verma, S.C. Kaushik and L.M. Das	
<b>Thermodynamic Modelling of Combustion Process in a Spark Ignition Engine and its Numerical Prediction</b> . . . . .	317
Vijaya Shree and V. Ganesan	
<b>Gasoline Direct Injection—Challenges</b> . . . . .	367
Srinibas Tripathy, Sridhar Sahoo and Dhananjay Kumar Srivastava	
<b>Syngas as SI Engine Fuel: Combustion Perspective</b> . . . . .	381
Atmadeep Bhattacharya and Amitava Datta	
<b>Part V Environmental Aspects</b>	
<b>Carbon Sequestration and Optimization of Enhanced Oil and Gas Recovery</b> . . . . .	401
Ramesh K. Agarwal, Razi Safi, James Biagi and Subhodeep Banerjee	
<b>Development of an Indigenous Sensor for Sub-micron Aerosol Monitoring in India</b> . . . . .	433
Tarun Gupta	

Combustion for Power Generation and Transportation  
Technology, Challenges and Prospects

Agarwal, A.K.; De, S.; Pandey, A.; Singh, A.P. (Eds.)

2017, X, 451 p. 240 illus., 178 illus. in color., Hardcover

ISBN: 978-981-10-3784-9
