Contents

1 Introduction 1
1.1 Research Background 1
1.1.1 211 Project and Chinese Higher Education 1
1.1.2 Inputs and Outputs in 211Us 3
1.1.3 Evaluating Research Efficiency of 211Us: Importance and Urgency 4
1.2 Research Contribution 5
1.3 Overview and Analytical Framework 6
1.3.1 Research Logic 6
1.3.2 Research Questions 6
1.3.3 Research Content and Analytic Framework 6
References 8

2 Evaluation on University Research Efficiency and Productivity: Concept, Methodology, and Literature Review 11
2.1 Introduction 11
2.2 Efficiency and Productivity: Concept, Classification and Distinction 13
2.3 Recent Development on Efficiency and Productivity Analysis 16
2.4 Empirical Studies in Evaluating University Research Efficiency and Productivity 18
2.4.1 Empirical Studies Outside China 18
2.4.2 Empirical Studies on Chinese Universities 19
2.5 Comments on Empirical Literature and Quantitative Approach . . . 22
2.5.1 Comments on Empirical Literature 22
2.5.2 Limitations on Quantitative Approach 25
2.6 Research Hypothesis and Methodology 27
2.6.1 Research Hypotheses 27
2.6.2 Research Methodology 28
References 29

3 Overall Research Performance of 211Us: An Input-Output Perspective 33
3.1 Brief Introduction 33
3.1.1 Research Sample 33
3.1.2 Indicator System and Data Sources 35
3.2 Status and Change of Research Inputs in 211Us 38
3.2.1 Status and Change of Overall Research Inputs in 211Us 38
3.2.2 Status and Change of Research Inputs in 985Us and Non-985Us 44
3.2.3 Status and Change of Research Inputs of 211Us by University Location 50
3.3 Status and Change of Research Outputs in 211Us 61
3.3.1 Status and Change of Overall Research Outputs in 211Us . . . 62
3.3.2 Status and Change of Research Outputs in 985Us and Non-985Us 69
3.3.3 Status and Change of Research Outputs in 211Us by Location 77
3.4 Status and Change of Research Output Per Unit Input in 211Us 86
3.4.1 Overall Status and Change of Research Output Per Unit Input in 211Us 86
3.4.2 Status and Change of Research Output Per Unit Input of 985Us and Non-985Us 90
3.4.3 Status and Change of Research Output Per Unit Input by University Location 93
3.5 Conclusions 100
3.5.1 Research Inputs of 211Us 100
3.5.2 Research Outputs of 211Us 101
Appendix 103
Reference 112

4 Evaluation on Research Efficiency of 211Us: The DEA Approach 113
4.1 Indicator System Construction and Data Sources 113
4.1.1 Theory of Economic Efficiency 113
4.1.2 Indicator System of University Research Production Efficiency 114
4.2 Overall Status and Change of 211Us' Research Production Efficiency 122
4.2.1 NEAM Disciplines 122
4.2.2 HSS Disciplines 126

4.2.3 Status and Change of Research Production Efficiency in 985Us and Non-985Us . . . 129
4.2.4 NEAM Disciplines . . . 129
4.2.5 HSS Disciplines . . . 131
4.2.6 Status and Change of Research Production Efficiency by University Location . . . 132
4.2.7 NEAM Disciplines . . . 132
4.2.8 HSS Disciplines . . . 134
4.2.9 Improving University Research Efficiency: Analysis of Projection . . . 136
4.2.10 NEAM Disciplines . . . 137
4.2.11 HSS Disciplines . . . 150
4.3 Conclusions . . . 158
4.3.1 NEAM Disciplines . . . 158
4.3.2 HSS Disciplines . . . 161
Appendix . . . 164
References . . . 218

5 Dynamic Evaluation on Research Productivity of "211 Project" Universities: The DEA-Malmquist Approach . . . 219
5.1 Change of Research Productivity in 211Us . . . 221
5.1.1 Overall Change of Research Productivity of 211NEAM Disciplines . . . 222
5.1.2 Overall Research Productivity Change of 211HSS Disciplines . . . 223
5.2 Differences and Trends on Research Productivity of 985Us and Non-985Us . . . 225
5.2.1 NEAM Disciplines . . . 226
5.2.2 HSS Disciplines . . . 229
5.3 Differences and Trends on 211Us' Research Productivity by Location . . . 233
5.3.1 NEAM Disciplines . . . 233
5.3.2 HSS Disciplines . . . 238
5.4 Conclusions . . . 243
5.4.1 NEAM Disciplines . . . 244
5.4.2 HSS Disciplines . . . 244
Appendix . . . 245
References . . . 260

6 Exploring Factors Impacting on Research Efficiency in "211 Project" Universities . . . 261
6.1 Analytic Framework of Factors Impacting on University Research Efficiency and Literature Review . . . 261
6.1.1 Environmental Factors at Macro Level . . . 262

6.1.2 Sectoral and Institutional Factors 264
6.1.3 Internal Factors at Micro Level 267
6.1.4 Comments 270
6.2 Econometric Analysis of Factors Impacting on 211Us' Research Efficiency 271
6.2.1 Selection of Indicators 272
6.2.2 Econometric Model 276
6.2.3 Results for NEAM Disciplines 278
6.2.4 Results for HSS Disciplines 281
6.2.5 Further Discussion on the Empirical Results 282
6.3 Conclusions 285
References 286

7 Concluding Remarks and Policy Implications 289
7.1 Concluding Remarks 290
7.1.1 Research Inputs of 211Us 290
7.1.2 Research Outputs of 211Us 290
7.1.3 Research Efficiency of 211Us 292
7.1.4 Productivity Changes of Research Efficiency in 211Us 296
7.1.5 Factors Impacting on Research Efficiency of 211Us 297
7.2 Policy Implications 298
