# Contents

|   |            |
|---|------------|
| <b>1 Genetic and Epigenetic Regulation of Autophagy in Cancer . . . . .</b>   | <b>1</b>   |
| Anup S. Pathania, Ubaid S. Makhdoomi, and Fayaz A. Malik  |            |
| <b>2 Cancer Genomics and Precision Medicine: A Way Toward<br/>Early Diagnosis and Effective Cancer Treatment . . . . .</b>          | <b>31</b>  |
| Ritika Tiwari and Bushra Ateeq  |            |
| <b>3 Genetics of Liver Diseases . . . . .</b>   | <b>43</b>  |
| Nirupama Trehanpati, Dinesh Rawat, and Hamed Hemati   |            |
| <b>4 Implication of Pre-replication Complex Proteins<br/>in Human Disease . . . . .</b>   | <b>67</b>  |
| Abid Khan, Arindam Chakraborty, and Supriya G. Prasanth   |            |
| <b>5 Non-muscle Myosin II Motor Proteins in Human<br/>Health and Diseases . . . . .</b>   | <b>79</b>  |
| Venkaiah Betapudi   |            |
| <b>6 Bioinformatics Databases: Implications in Human Health. . . . .</b>  | <b>109</b> |
| Leena Rawal, Deepak Panwar, and Sher Ali  |            |
| <b>7 Genomics of the Human Y Chromosome:<br/>Applications and Implications . . . . .</b>  | <b>133</b> |
| Sanjay Premi, Jyoti Srivastava, and Sher Ali  |            |
| <b>8 Human Microbiome: Implications on Health and Disease . . . . .</b>   | <b>153</b> |
| Princy Hira, Utkarsh Sood, Vipin Gupta, Namita Nayyar,<br>Nitish Kumar Mahato, Yogendra Singh, Rup Lal,<br>and Mallikarjun Shakarad |            |

Genome Analysis and Human Health

Rawal, L.; Ali, S. (Eds.)

2017, XI, 168 p. 19 illus. in color., Hardcover

ISBN: 978-981-10-4297-3
