## Part I Introducing Smart Learning and Smart Cities

<b>1 Development of Smart Cities: Educational Perspective</b>	3
1.1 Introduction	3
1.2 Definition of Smart City	4
1.2.1 Reviewing the Definition	4
1.2.2 Dimensions of Smart Cities	5
1.3 Dual-Core Framework of Smart Cities	7
1.3.1 Dual-Core Framework	8
1.3.2 Construction of Smart Cities	10
1.4 Smart Cities and Smart Learning Environments	11
References	13
<b>2 Contexts of Smart Learning Environments</b>	15
2.1 Introduction	15
2.2 Definition of Smart Learning Environments	16
2.3 Learning Modes in Different Smart Learning Environments	19
2.4 The Constituent Elements and Technical Features of Smart Learning Environments	20
2.5 Typical Smart Learning Environments	22
2.5.1 Smart Learning Environment Supporting “Self-learning”	23
2.5.2 Smart Learning Environment Supporting “Inquiry Learning”	24
2.5.3 Smart Learning Environment Supporting of “Learning by Doing”	25
2.5.4 Smart Learning Environment Supporting “Learning by Working”	26

2.5.5	Smart Learning Environment Supporting “Classroom Learning”	26
2.6	Discussion	27
	References.	28
<b>3</b>	<b>Characteristics and Framework of Smart Learning</b>	<b>31</b>
3.1	Introduction	31
3.2	Characteristics of Smart Learning	32
3.3	Framework of Smart Learning	35
3.3.1	Four Basic Principles of Smart Learning	37
3.3.2	Explicitness of Smart Learning	38
3.4	Smart Learning and Smart City	43
3.4.1	Smart Education in the Context of Smart City	43
3.4.2	Smart Learning in the Context of Smart City	44
3.4.3	Understanding Smart Learning in City Environment	46
	References.	48
 <b>Part II Smart Learning in Specific Domains</b>		
<b>4</b>	<b>Smart Learning in Digital Campus</b>	<b>51</b>
4.1	Introduction	51
4.2	The Current Status of Digital Campus in China	53
4.2.1	The Condition of Network Access Have Been Improved	53
4.2.2	Learning Terminals Have Been Enriched	59
4.2.3	Unbalanced Construction of Teaching Support Service System	73
4.2.4	Information Safety Has Been Upgraded	77
4.3	Trends in Development of Digital Campus in China	79
4.3.1	Situation Identifying, Environment Awareness Technology and Social Networking Technologies Will Support the Construction of Smart Campus.	80
4.3.2	Learning Analytics Based on Big Educational Data Will Become Indispensable.	81
4.3.3	Creating Open Learning Environments Is Inevitable	81
4.4	Ten Best Practices in Constructing of Digital Campus	82
4.4.1	Exploration of Innovative Multiple-Campus Management Model Based on Smart Campus: Second Primary School of Yudong in Banan District of Chongqing	82
4.4.2	Integration of Lesson Preparation, Instruction, and Teaching-Research Based on Cloud Platform: Sandaojie Primary School in Wuhan of Hubei Province	83

4.4.3	Implementation of Flipped Classroom in All-Subject Based on Online Teaching System: First Changle High School of Shandong Province. . . . .	83
4.4.4	The Integrated Service Platform of Educational Administration and Teaching: Affiliated High School of Beijing Institute of Technology. . . . .	84
4.4.5	Implementing Digitized Office Work and Teaching Innovation Based on the Smart Campus Platform: Affiliated High School of Tianjin University. . . . .	86
4.4.6	Construction of Smart Campus of “One Platform and Two Systems” Helps with Teaching and Administrative Innovation: Yantian High School of Shenzhen of Guangdong Province . . . . .	87
4.4.7	Implementing Innovations in Administration of Teaching and Talent Cultivation with the Support of Smart Campus Ecology: Changzhou College of Information Technology of Jiangsu. . . . .	87
4.4.8	Smart Education Administration and Web Learning Platform Based on Cloud Service and Virtualization Technology: Shandong Polytechnic College . . . . .	88
4.4.9	Improving Teaching, Scientific Research and Management Based on the Internet of Things: Nanjing University of Posts and Telecommunications. . . . .	88
4.4.10	Providing One-Stop Service for Teachers and Students Based on Mobile Smart Campus: Guizhou Institute of Technology. . . . .	89
	References. . . . .	90
<b>5</b>	<b>Smart Learning in Classroom Environment . . . . .</b>	<b>91</b>
5.1	Introduction . . . . .	91
5.2	The Trends of ICT in Classroom . . . . .	93
5.3	Applying Innovative Artificial Intelligence in Education: Learning Companion and Smart Classrooms . . . . .	93
5.4	Transforming Teaching Mode. . . . .	94
5.5	Preparing Teachers and Students for Smart Classroom. . . . .	94
5.6	Combining STEM with Smart Classroom. . . . .	95
5.7	Integrating Maker into Smart Classroom . . . . .	95
5.8	The Status of Classroom in Chinese Schools . . . . .	96
5.9	Implementation of Multimedia Classroom in Chinese Schools . . . . .	97
5.9.1	Multimedia Classroom in Primary School. . . . .	97
5.9.2	Multimedia Classroom in Junior High School. . . . .	97
5.9.3	Multimedia Classroom in Senior High School. . . . .	99

5.10	Implementation of Computer Classroom in Chinese Schools . . . .	99
5.10.1	Computer Classroom in Primary School . . . . .	99
5.10.2	Computer Classroom in Junior High School . . . . .	99
5.10.3	Computer Classroom in Senior High School . . . . .	101
5.11	Implementation of Interactive White Board Classroom in Chinese Schools . . . . .	101
5.11.1	Interactive White Board Classrooms Throughout the Country . . . . .	102
5.11.2	Interactive White Board Classrooms in Different Regions of China. . . . .	103
5.12	Implementation of Tablet Computer Classrooms in Chinese Schools. . . . .	103
5.12.1	Tablet Computer Classrooms in Primary School . . . . .	104
5.12.2	Tablet Computer Classrooms in Junior High School . . . .	104
5.12.3	Tablet Computer Classrooms in Senior High School. . . .	105
5.13	Ways to Build Smart Classrooms in China. . . . .	106
5.14	Upgrading Multimedia Classroom . . . . .	106
5.14.1	Classroom Equipment . . . . .	106
5.14.2	Spatial Arrangement . . . . .	106
5.14.3	Teaching Application. . . . .	107
5.14.4	Typical Cases . . . . .	108
5.15	Upgrading Computer Rooms . . . . .	109
5.15.1	Classroom Equipment . . . . .	109
5.15.2	Spatial Arrangement . . . . .	110
5.15.3	Teaching Application. . . . .	111
5.15.4	Typical Cases . . . . .	111
5.16	Upgrading Interactive White Board Classroom. . . . .	112
5.16.1	Classroom Equipment . . . . .	112
5.16.2	Spatial Arrangement . . . . .	113
5.16.3	Teaching Application. . . . .	114
5.16.4	Typical Cases . . . . .	114
	References. . . . .	116
<b>6</b>	<b>Smart Learning in Corporate University. . . . .</b>	<b>119</b>
6.1	Introduction . . . . .	119
6.2	History of Development and Current Status of Corporate Universities. . . . .	121
6.2.1	Developmental Background of Corporate Universities . . . . .	121
6.2.2	Features and Functions of Corporate Universities . . . . .	122
6.2.3	Teachers and Course System in Corporate University . . . . .	124
6.2.4	Revolution of Corporate Universities in China . . . . .	125
6.2.5	Smart Learning in Corporate University . . . . .	129

6.3	Learning Elements in Smart Learning of Corporate University. . . . .	131
6.3.1	Learning Elements in Corporate University. . . . .	131
6.3.2	Case Analysis on Corporate University Learning Elements . . . . .	133
6.4	Smart Learning in Corporate University Online Platform. . . . .	134
6.4.1	Framework of Corporate University Online Platform . . .	135
6.4.2	Functional Module of Corporation University Online Platform. . . . .	135
6.4.3	Case Analysis on Corporate University Online Platform. . . . .	136
6.4.4	Promotion of Corporate Online Learning Platform to Smart Learning . . . . .	141
6.5	Directions of Future Development of Corporate Universities . . .	142
6.5.1	Platform Construction Based on Big Data Analysis . . .	142
6.5.2	Platform Plan Based on the Trends of Mobile Learning . . . . .	143
	References. . . . .	144
<b>7</b>	<b>Industry Promoting Smart Learning. . . . .</b>	<b>147</b>
7.1	Introduction . . . . .	147
7.2	Developmental Status of Smart Learning Industry . . . . .	148
7.2.1	Full Coverage of the Lifelong Learning System . . . . .	148
7.2.2	Increased Diversification of Industry Solutions . . . . .	150
7.2.3	Promotion of Learning Society by Intelligent Tools . . .	152
7.2.4	Online Products Should Be Optimized Through User Analysis . . . . .	154
7.2.5	Bottlenecks and Possible Solutions . . . . .	158
7.3	Map of Capital Investments Supporting the Smart Learning Industrialization . . . . .	161
7.3.1	Open Capitals Getting Involved . . . . .	161
7.3.2	Industrial Shuffle Motivated by the Capital Participation . . . . .	165
7.3.3	Capital Is Interested in Profit Model of Online Education . . . . .	167
7.4	Growth Analysis of Smart Learning Industry . . . . .	171
7.4.1	Industry Development Is Supported by Relevant Governmental Policies. . . . .	171
7.4.2	Smart Learning + Industry as a Key Indicator of a City's Soft Strength . . . . .	174
7.4.3	Industrialization of Production of Learning Content . . .	177
7.4.4	Evolution and Reconstruction of the Industry Chain . . .	179
	References. . . . .	182

### Part III Future Trends: Chinese and Multicultural Perspectives

<b>8</b>	<b>Future Trends of Smart Learning: Chinese Perspective. . . . .</b>	<b>185</b>
8.1	Introduction . . . . .	185
8.2	Environments for Smart Learning. . . . .	186
8.2.1	Research on Smart Learning Grows Fast. . . . .	186
8.2.2	Practices of Smart Learning Grow with the Increasing Educational Financial Input. . . . .	188
8.2.3	The Scope of “Learning” Changes in Knowledge Society . . . . .	191
8.2.4	Education Becomes the High-End Service in Cities . . . .	195
8.3	Influence of Information Revolution on Smart Learning. . . . .	196
8.3.1	“Internet+” Contributes to the Learning Society in Cities. . . . .	197
8.3.2	ICT Reconstructs Learning Behaviors. . . . .	199
8.3.3	Mobile Learning Becomes Popular . . . . .	202
8.3.4	“Cloud + Client” Fosters the Construction of Smart City. . . . .	204
8.3.5	Use of Big Data to Promote Learning Innovation . . . . .	206
8.4	Trends in the Development of Smart Learning. . . . .	209
8.4.1	Integrating the Concepts of Smart Learning and “Internet+” . . . . .	209
8.4.2	Reconstructing the Structure of Learning. . . . .	210
8.4.3	Restructuring the Learning Environments . . . . .	211
8.4.4	Reforming the Online Education . . . . .	211
8.4.5	Upgrading Smart Learning . . . . .	212
8.5	Suggestions on How to Promote the Development of Smart Learning. . . . .	213
8.5.1	Considering Smart Learning as the New Growth Point of Regional Economic Development . . . . .	213
8.5.2	Launching a Wide Range of Pilot Projects . . . . .	213
8.5.3	Promoting the Formation of City-Level Learning System. . . . .	214
8.5.4	Incorporating Smart Learning Evaluation into the Smart City Evaluation System. . . . .	214
8.5.5	Improving the Governance Mechanism for the Smart Learning . . . . .	214
	References. . . . .	215
<b>9</b>	<b>Multicultural Perspective on Smart Learning in Smart Cities. . . . .</b>	<b>217</b>
9.1	Introduction . . . . .	217
9.2	Three Perspectives on the Concept of a Smart City . . . . .	218
9.3	Cultural Context and a Vision of Smart City . . . . .	219
9.4	Cross-Cultural Communication. . . . .	220

9.5 Role of Education in Development of Smart Cities:  
    Concept of Smart Schools . . . . . 222

9.6 Important Lessons from the Malaysia Smart School Project. . . . 224

9.7 Smart Learning Environment . . . . . 227

9.8 Impact of Cultural Context on Students’ Motivation  
    for Learning . . . . . 229

9.9 Literacy: Traditional and New Definitions . . . . . 230

9.10 Conclusion . . . . . 230

References. . . . . 231
