

Contents

1	Integrated Waste Management System Overview	1
1.1	Overview of the Book	1
1.2	Challenges in Managing Solid Wastes	2
1.3	What Is Waste?	3
1.4	Waste Management Systems	5
1.5	Integrated Sustainable Waste Management (ISWM) Framework	7
	References	13
2	Waste Characteristics and Practices	15
2.1	Waste Generation Rate	15
2.2	Waste Composition	17
2.3	Waste Management Practices	21
2.4	Formal and Informal MSW Recycling	25
2.5	Waste Management Cost	27
	References	27
3	Municipal Waste Management in Thailand	29
3.1	Waste Management Situation	29
3.2	Waste Generation	32
3.3	Situation of MSW in Bangkok (Thailand)	35
3.4	Waste Management Policies in Thailand	35
3.5	Waste Management in Thailand	38
3.6	Thailand Environmental Quality Management Plan (2012–2016)	44
3.7	Recommendations for MSWM in the Future	45
	References	46

4	Community-Based Waste Management in Thailand	49
4.1	Community-Based MSWM	49
4.2	Waste Banks in Thailand	50
4.3	Lessons Learned from Sakon Nakhon Province (Thailand)	52
4.4	Key Factors for Case Study Success	55
4.5	Incentives from CBM Programs	56
	References	61
5	Household Hazardous Waste Management in Thailand	63
5.1	Household Hazardous Waste	63
5.2	Household Hazardous Waste Generation	64
5.3	HHW Impact and Treatment	65
5.4	Case Study: Household Hazardous Waste Management in Bangkok	69
5.4.1	Background	69
5.4.2	Current Practice on HHW Management in Bangkok	71
5.5	Suggestion for Future Management Improvement	73
	References	75
6	Infectious Waste Management in Thailand	77
6.1	Definition and Types of Infectious Waste	77
6.2	Situation of Infectious Waste Management	79
6.3	Infectious Waste Treatment Technologies	80
6.4	Processes of Infectious Waste Management	81
6.5	Impacts of Infectious Waste	86
6.6	Case Study: Infectious Waste Generation and Management in Bangkok	86
6.6.1	Infectious Waste Management in Bangkok	86
6.6.2	Infectious Waste Management Systems Within Hospitals	88
6.6.3	Recommendations for Infectious Waste Management Improvement	89
	References	91
7	Electronic Waste Management in Thailand	93
7.1	E-waste Management Worldwide	93
7.2	Toxic Materials and Precious Metals inside E-waste	96
7.3	Situation of E-wastes in Thailand	96
7.4	E-waste Management Strategy in Thailand	99
7.5	Situation in E-waste Recycling in Thailand	105
7.6	Urban Mining and Recycling of E-waste	105
7.7	Impact from End-of-Life E-waste Management	109
7.7.1	Dumping Desktop PCs into Landfill	109
7.7.2	Informal Recycling	109

7.8	Policies for End-of-Life Management: International Scheme	110
7.9	Policies and Relevant Regulations of E-waste Management in Thailand	112
7.10	Appropriate Ways of Managing the End of Life of WEEE	112
7.11	Recommendation for Managing E-waste in Thailand	113
	References.	114
8	E-waste Management in Thailand (Case Studies)	117
8.1	Case Study on Mobile Phone Waste Management	117
8.1.1	Environmental Impact of Mobile Phones Waste	118
8.1.2	Mobile Phone Waste Management Preferences in Thailand	120
8.1.3	Recommendations for Future Improvement in How to Manage Mobile Phone Waste	124
8.2	Case Study on Computer Waste Management	126
8.2.1	The Computer Waste Situation	126
8.2.2	Public Perception of Computer Waste Management in Thailand	131
8.2.3	Approach for Collecting Discarded Desktop PCs	132
8.2.4	Recommendations for Future Improvement of PC Waste Management	134
8.3	Case Study: Television Waste Management in Thailand.	135
8.3.1	Current Situation of TV Waste Management.	135
8.3.2	Approaches to End-of-Life TV Waste Collection	137
8.3.3	Recommended Policies for TV Waste Management	137
	References.	138
	Bibliography	141

Challenges for Sustainable Solid Waste Management

Lessons from Thailand

Pharino, C.

2017, XI, 141 p. 58 illus. in color., Softcover

ISBN: 978-981-10-4629-2
