
Contents

1	Significant Contributions of Prof. S.B. Saxena to Indian Mycology	1
	R. S. Mehrotra, M. R. Siddiqui and Ashok Aggarwal	
2	Biology and Significance of <i>Saksenaea vasiformis</i>	19
	Itisha Singh and R. K. S. Kushwaha	
3	History of Mycology from India—Some Glimpses	29
	C. Manoharachary	
4	Various Aspects of Ammonia Fungi	39
	Akira Suzuki	
5	Marine Filamentous Fungi: Diversity, Distribution and Bioprospecting	59
	K. R. Sridhar	
6	Keratinophilic Fungi Distribution, Pathogenicity and Biotechnological Potentials	75
	Shilpa A. Verekar and Sunil K. Deshmukh	
7	Fungal World of Cave Ecosystem	99
	Seema Rawat, Rachna Rautela and B. N. Johri	
8	Anaerobic Gut Fungi	125
	D. N. Kamra and Birbal Singh	
9	Fungal Endophytes Representing Diverse Habitats and Their Role in Plant Protection	135
	Satish K. Verma, Surendra K. Gond, Ashish Mishra, Vijay K. Sharma, Jitendra Kumar, Dheeraj K. Singh, Anuj Kumar and Ravindra N. Kharwar	
10	<i>Fusarium oxysporum</i>: Genomics, Diversity and Plant–Host Interaction	159
	Anjul Rana, Manvika Sahgal and B. N. Johri	

11 Yeast Genome Sequencing: Basic Biology, Human Biology, and Biotechnology	201
Krishna Kant Sharma	
12 Fungal Differentiation: A Model Phenomenon to Screen Antifungal Drugs	227
E. K. Pathan, S. G. Tupe and M. V. Deshpande	
13 <i>Candida Albicans</i> Biofilm as a Clinical Challenge	247
Ashwini Jadhav and Sankunni Mohan Karuppayil	
14 Characteristics and Multifarious Potential Applications of HAP Phytase of the Unconventional Yeast <i>Pichia anomala</i>	265
Swati Joshi and Tulasi Satyanarayana	
15 Fungal Inulinolytic Enzymes: A Current Appraisal	279
Hemant Kumar Rawat, Hemant Soni and Naveen Kango	
16 Fungal Tannase: Recent Advances and Industrial Applications	295
Sunny Dhiman, Gunjan Mukherjee, Anu Kumar, Papiya Mukherjee, Shilpa A. Verekar and Sunil K. Deshmukh	
17 Mycoremediation: An Alternative Treatment Strategy for Heavy Metal-Laden Wastewater	315
Tuhina Verma, Annapurna Maurya, Manikant Tripathi and Satyendra Kumar Garg	
18 Treatment of Landfill Leachate Using Fungi: An Efficient and Cost-Effective Strategy	341
Pooja Ghosh and Indu Shekhar Thakur	
19 Studies on Mycorrhiza in <i>Pinus gerardiana</i> Wall. ex D. Don, a Threatened Pine of the NW Himalaya	359
Sunil Kumar, Vaneet Jishtu, J. S. Thakur and T. N. Lakhanpal	
20 Role of Phosphate-Solubilizing Fungi in Sustainable Agriculture	391
Gundeep Kaur and M. Sudhakara Reddy	
21 Biotechnological Advancements in Industrial Production of Arbuscular Mycorrhizal Fungi: Achievements, Challenges, and Future Prospects	413
Ankit Kumar, Reena Singh and Alok Adholeya	
22 Role of Fungicides in Crop Health Management: Prospects and Challenges	433
T. S. Thind	
23 Bioherbicides: Strategies, Challenges and Prospects	449
K. R. Aneja, S. A. Khan and A. Aneja	

24	Characterization of Lamellate Mushrooms—An Appraisal	471
	N. S. Atri, Munruchi Kaur and Samidha Sharma	
25	Occurrence and Distribution of Mushrooms in Semi-evergreen Sal (<i>Shorea robusta</i>) Forest Chhattisgarh, Central India	501
	Kamlesh Shukla, Bhoopander Giri and R. V. Shukla	
26	Fungal Pigments: An Overview	525
	Gunjan Mukherjee, Tulika Mishra and Sunil K. Deshmukh	
27	Ex situ Conservation of Fungi: A Review	543
	Sanjay K. Singh	
28	Camouflaged Mycotoxins in Some Field Crops and Forages: A Review	563
	Skarma Nonzom and Geeta Sumbali	
	Index	601

Developments in Fungal Biology and Applied Mycology
Satyanarayana, T.; Deshmukh, S.K.; Johri, B.N. (Eds.)
2017, XVII, 605 p. 57 illus., 40 illus. in color., Hardcover
ISBN: 978-981-10-4767-1
