<b>1</b>	<b>Asymptotic Estimation for Truncated Exponential Families</b>	<b>1</b>
1.1	Models with Nuisance Parameters and Their Differences	1
1.2	One-Sided Truncated Exponential Family	4
1.3	Two-Sided Truncated Exponential Family	5
	References	6
<b>2</b>	<b>Maximum Likelihood Estimation of a Natural Parameter for a One-Sided TEF</b>	<b>7</b>
2.1	Introduction	7
2.2	Preliminaries	8
2.3	MLE $\hat{\theta}_{ML}^{\gamma}$ of a Natural Parameter $\theta$ When a Truncation Parameter $\gamma$ is Known	9
2.4	Bias-Adjusted MLE $\hat{\theta}_{ML^*}$ of $\theta$ When $\gamma$ is Unknown	10
2.5	MCLE $\hat{\theta}_{MCL}$ of $\theta$ When $\gamma$ is Unknown	11
2.6	Second-Order Asymptotic Comparison Among $\hat{\theta}_{ML}^{\gamma}$ , $\hat{\theta}_{ML^*}$ , and $\hat{\theta}_{MCL}$	13
2.7	Examples	14
2.8	Concluding Remarks	23
2.9	Appendix A1	24
2.10	Appendix A2	31
	References	34
<b>3</b>	<b>Maximum Likelihood Estimation of a Natural Parameter for a Two-Sided TEF</b>	<b>35</b>
3.1	Introduction	35
3.2	Preliminaries	36
3.3	MLE $\hat{\theta}_{ML}^{\gamma, v}$ of $\theta$ When Truncation Parameters $\gamma$ and $v$ are Known	36
3.4	Bias-Adjusted MLE $\hat{\theta}_{ML^*}$ of $\theta$ When $\gamma$ and $v$ are Unknown	37

3.5	MCLE $\hat{\theta}_{MCL}$ of $\theta$ When $\gamma$ and $v$ are Unknown. . . . .	39
3.6	Second-Order Asymptotic Comparison Among $\hat{\theta}_{ML}^{\gamma,v}$ , $\hat{\theta}_{ML^*}$ , and $\hat{\theta}_{MCL}$ . . . . .	40
3.7	Examples . . . . .	41
3.8	Concluding Remarks . . . . .	52
3.9	Appendix B1 . . . . .	53
3.10	Appendix B2 . . . . .	61
	References. . . . .	64
<b>4</b>	<b>Estimation of a Truncation Parameter for a One-Sided TEF . . . . .</b>	<b>65</b>
4.1	Introduction . . . . .	65
4.2	Preliminaries. . . . .	65
4.3	Bias-Adjusted MLE $\hat{\gamma}_{ML^*}^{\theta}$ of $\gamma$ When $\theta$ is Known. . . . .	66
4.4	Bias-Adjusted MLE $\hat{\gamma}_{ML^*}^{\gamma}$ of $\gamma$ When $\theta$ is Unknown. . . . .	67
4.5	Second-Order Asymptotic Loss of $\hat{\gamma}_{ML^*}$ Relative to $\hat{\gamma}_{ML^*}^{\theta}$ . . . . .	68
4.6	Examples . . . . .	69
4.7	Concluding Remarks . . . . .	74
4.8	Appendix C . . . . .	75
	References. . . . .	78
<b>5</b>	<b>Estimation of a Truncation Parameter for a Two-Sided TEF . . . . .</b>	<b>79</b>
5.1	Introduction . . . . .	79
5.2	Preliminaries. . . . .	80
5.3	Bias-Adjusted MLE $\hat{v}_{ML^*}^{\theta,\gamma}$ of $v$ When $\theta$ and $\gamma$ are Known. . . . .	80
5.4	Bias-Adjusted MLE $\hat{v}_{ML^*}^{\gamma}$ of $v$ When $\theta$ is Unknown and $\gamma$ is Known . . . . .	81
5.5	Bias-Adjusted MLE $\hat{v}_{ML^*}$ of $v$ When $\theta$ and $\gamma$ are Unknown . . . . .	84
5.6	Second-Order Asymptotic Losses of $\hat{v}_{ML^*}$ and $\hat{v}_{ML^*}^{\gamma}$ Relative to $\hat{v}_{ML^*}^{\theta,\gamma}$ . . . . .	86
5.7	Examples . . . . .	87
5.8	Concluding Remarks . . . . .	97
5.9	Appendix D . . . . .	98
	References. . . . .	102
<b>6</b>	<b>Bayesian Estimation of a Truncation Parameter for a One-Sided TEF. . . . .</b>	<b>103</b>
6.1	Introduction . . . . .	103
6.2	Formulation and Assumptions . . . . .	103
6.3	Bayes Estimator $\hat{\gamma}_{B,\theta}$ of $\gamma$ When $\theta$ is Known . . . . .	104
6.4	Bayes Estimator $\hat{\gamma}_{B,\hat{\theta}_{ML}}$ of $\gamma$ When $\theta$ is Unknown . . . . .	105
6.5	Examples . . . . .	107

Contents	xi
6.6 Concluding Remarks	113
6.7 Appendix E	114
