Contents

1 **How Far Can Mitochondrial DNA Drive the Disease?** 1
Hongzhi Sun, Weibin Shi, and Xiangdong Wang

2 **Mitochondrial DNA in Lung Cancer** 9
Fangming Liu, David E. Sanin, and Xiangdong Wang

3 **Approach, Application, and Bioethics of mtDNA Sequencing in Cancer** 23
Mengjia Qian, Claudio Spada, and Xiangdong Wang

4 **Roles of Mitochondrial DNA Signaling in Immune Responses** 39
Lingyan Wang, Michael N. Liebmen, and Xiangdong Wang

5 **Mitochondrial DNA in Telocytes** 55
Dongli Song, Dragos Cretoiu, and Xiangdong Wang

6 **Roles of Mitochondrial DNA in Energy Metabolism** 71
Jiapei Lv, Madhav Bhatia, and Xiangdong Wang

7 **The Role of DNA Repair in Maintaining Mitochondrial DNA Stability** 85
Linlin Zhang, Aurelio Reyes, and Xiangdong Wang

8 **Is Mitochondrial Cell Fragility a Cell Weakness?** 107
William Wang, Jiayuan Hou, Zhenghua Zhu, and Hao Fang

9 **Mitochondrial DNA Methylation and Related Disease** 117
Danyan Gao, Bijun Zhu, Hongzhi Sun, and Xiangdong Wang

10 **Beyond Deubiquitylation: USP30-Mediated Regulation of Mitochondrial Homeostasis** 133
Jiayun Hou, Mohmmad Eldeeb, and Xiangdong Wang

11 **Metabolic Regulation in Mitochondria and Drug Resistance** 149
Yue Pan, Min Cao, Jianzhou Liu, Qing Yang, Xiaoyu Miao, Vay Liang W. Go, Paul W. N. Lee, and Gary Guishan Xiao

12 Mitochondrial Lon Protease and Cancer 173
Bin Lu

13 Regulatory Roles of Mitochondrial Ribosome in Lung Diseases and Single Cell Biology 183
Linlin Zhang, William Wang, Bijun Zhu, and Xiangdong Wang

14 Epithelial Mitochondrial Dysfunction in Lung Disease 201
Linlin Zhang, William Wang, Bijun Zhu, and Xiangdong Wang

15 Significance of Mitochondria DNA Mutations in Diseases 219
Zhenhua Zhu and Xiangdong Wang
