

Contents

Author biographies	ix
Abbreviations	xiii
1 Introduction	1
1.1 Disease overview	1
1.2 Epidemiology	4
1.3 Etiology and pathogenesis	6
1.4 Genetic susceptibility	8
1.5 Environmental factors	13
1.6 Hormonal factors	16
1.7 Drug-induced systemic lupus erythematosus	17
References	20
2 Disease classification	27
2.1 Historical development	27
2.2 Classification criteria	28
2.3 The American College of Rheumatology classification criteria for systemic lupus erythematosus	28
2.4 Limitations of the American College of Rheumatology classification criteria for systemic lupus erythematosus	32
2.5 The Systemic Lupus International Collaborative Clinics classification criteria for systemic lupus erythematosus	33
2.6 Sub-classification of systemic lupus erythematosus	37
References	37
3 Disease manifestations	39
3.1 Overview	39
3.2 Constitutional	41
3.3 Musculoskeletal	42
3.4 Dermatologic	44
3.5 Renal lupus	49
3.6 Neuropsychiatric	51

3.7 Cardiac manifestations	54
3.8 Pulmonary	56
3.9 Gastrointestinal	58
3.10 Hematological	59
3.11 Ocular manifestations	62
References	63
4 Diagnosis	71
4.1 Clinical assessment	71
4.2 Laboratory testing	72
4.3 Imaging	77
4.4 Differential diagnosis	80
References	82
5 Treatments	85
5.1 Goals of treatment and treatment strategies	85
5.2 Local measures and nonsteroidal medications	87
5.3 Antimalarials	88
5.4 Systemic corticosteroids (glucocorticoids)	91
5.5 Immunosuppressive agents	92
5.6 Biologic agents	95
5.7 Unapproved and experimental therapies	99
5.8 Overall treatment principles	100
5.9 Adjunctive and preventive measures	104
References	104
6 Therapies in late-stage clinical development	109
6.1 Advances in the treatment of systemic lupus erythematosus	109
6.2 B-cell modulating agents	110
6.3 Interferon antagonists	113
6.4 Other investigational agents	115
6.5 Conclusion	115
References	117

7	Specific issues	121
7.1	Pediatric systemic lupus erythematosus	121
7.2	Late-onset SLE	125
7.3	Management of pregnancy	128
7.4	Neonatal lupus	132
7.5	Cardiovascular risk	135
7.6	Infections and vaccines	140
	References	143
8	Disease activity, outcomes, prognosis, and perspectives	151
8.1	Disease activity	151
8.2	Lupus flares	160
8.3	Response to treatment	161
8.4	Remission and low-disease activity	161
8.5	Damage	162
8.6	Patient-reported outcomes and quality of life	163
8.7	Prognosis	164
8.8	Perspectives	165
	References	166

Advanced Handbook of Systemic Lupus Erythematosus

Arnaud, L.; van Vollenhoven, R.

2018, XVI, 167 p. 25 illus., 20 illus. in color., Softcover

ISBN: 978-3-319-43034-8
