

Contents

1 An Overview of the Studies, Papua New Guinea, Oceania, Languages and Migrations	1
Kay Owens and Glen Lean	
Introduction.....	1
Purpose of the Study	3
Tour of the Major Studies	4
Smith's Studies.....	4
Lean's Study.....	4
Muke's Study in Wahgi Valley, Jiwaka PNG.....	6
Paraide's Study of Tolai Language and Cultural Practices	6
Owens' Studies.....	7
Saxe's Studies	8
Matang's Studies	8
Other Studies.....	8
Prehistory in New Guinea.....	9
The Linguistic Situation.....	10
The Papuan (Non-Austronesian) Languages	10
The Austronesian Languages	12
Theories of Migration and Prehistory.....	14
Papuan Language Migrations	14
Oceanic Austronesian Language Migrations	16
Prehistoric Trade and Technology.....	19
Summary on Migration and Prehistory.....	20
Organisation of the Book.....	20
Cycle Analysis of Counting Systems	20
References.....	22
2 The Languages Studied by Lean and his Analysis of Counting Systems.....	27
Kay Owens and Glen Lean	
Introduction.....	27
Details of Lean's Methods and Language Sources	28
Papua New Guinea.....	29
Oceania	33
The Description and Classification of Data	34
Spatial Analysis of the Languages of Papua New Guinea.....	35
References.....	37

3	2-Cycle Systems Including Some Digit Tally Systems	41
	Kay Owens, Glen Lean, and Charly Muke	
	The Existence and Nature of 2-Cycle Systems.....	41
	Australian 2-Cycle Systems.....	42
	2-Cycle Systems in New Guinea	43
	Type (a): The “Pure” 2-Cycle	43
	Type (b): With a (2, 5) or (2, 5, 20) Cyclic Pattern.....	45
	Type (c): With a (2', 5) or (2', 5, 20) Cyclic Pattern.....	48
	Type (d): With a (2'', 5, 20) Cyclic Pattern	49
	Type (e): With a (2', 4, 8) or (2', 4, 8, 10) Cyclic Pattern.....	49
	Summary of 2-Cycle Data	50
	Digit Tally Systems – Embedded in Culture and Extending Mathematical Thinking.....	52
	A (2, 5, 20) Cycle System With Large Numbers	54
	Muke’s Study of Mid-Wahgi (Yu Woi) Counting in a Cultural Context	54
	Large Numbers.....	56
	Cultural Beliefs Associated With Number.....	57
	Conclusion	58
	References.....	59
4	Body-Part Tally Systems.....	61
	Kay Owens and Glen Lean	
	The Existence of Body-Part Tally Systems.....	61
	Body-Part Tally Methods in New Guinea.....	64
	The Distribution of Body-Part Tallies.....	68
	References.....	72
5	5-Cycle Systems.....	73
	Kay Owens and Glen Lean	
	The Existence and Nature of 5-Cycle Systems.....	73
	5-Cycle Systems in New Guinea and Oceania	75
	Systems With a (5) or (5, 20) Cyclic Patterns.....	76
	Systems With a (5, 10) or (5, 10, 100) Cyclic Patterns.....	82
	Systems With a (5, 10, 20) Cyclic Pattern	85
	Summary	87
	References.....	88
6	10-Cycle Systems.....	91
	Kay Owens and Glen Lean	
	The Existence and Nature of 10-Cycle Systems.....	91
	10-Cycle Systems in the Papuan (NAN) Languages	93
	10 Cycle Systems in the AN languages of New Guinea.....	97
	10-Cycle Systems in Island Melanesia	103
	10-Cycle systems in Polynesia.....	105
	10-Cycle systems in Micronesia	106
	Summary of 10-Cycle System Data.....	108
	References.....	109
7	4- and 6-Cycle Systems	113
	Kay Owens and Glen Lean	
	The Existence and Nature of 4-Cycle Systems.....	113
	4-Cycle Systems Among the NAN Languages.....	114

4-Cycle Systems Among the AN Languages	118
Summary of 4-Cycle System Data.....	119
The Existence and Nature of 6-Cycle Systems.....	120
6-Cycle Systems in the NAN Languages.....	120
Summary of 6-Cycle System Data and General Commentary	123
References.....	125
8 Number and Counting in Context, Classifications and Large Numbers	127
Kay Owens and Glen Lean	
Introduction.....	127
The Importance of Number in Foundational Societies	128
The Adzera People of the Morobe Province (PNG)	128
The Grand Valley Dani of West Papua	130
The Loboda of the Milne Bay Province (PNG).....	131
The Ekagi of the Wissel Lakes (West Papua)	132
The Melpa of the Western Highlands Province (PNG).....	133
The Mountain Arapesh of the East Sepik Province (PNG).....	134
The Woleai People of Micronesia	134
Commentary	135
What Is, And What Is Not, Counted In Foundational Societies?.....	136
The Kaugel Valley People of the Western Highlands Province (PNG)	137
The Kewa of the Southern Highlands Province (PNG).....	137
The People of Kiwai Island, Western Province (PNG).....	138
The People of Rossel Island, Milne Bay Province (PNG).....	138
The Ponam Islanders of the Manus Province (PNG).....	139
The Mengen People of the East New Britain Province (PNG).....	140
The Arosi of the Solomon Islands.....	140
The Pukapuka of Central Polynesia.....	143
Commentary	143
Numeral Classification.....	146
What is Numeral Classification?.....	146
The Geographical Distribution of Classifier Languages.....	147
The Nature of Categorisation.....	148
The Occurrence of Numeral Classification Among the NAN Languages	148
Numeral Classification Among the AN Languages of PNG and Oceania	149
Classifiers in Micronesian Languages Compared to Polynesian Languages.....	150
Summary	152
Large Numbers in the NAN and AN Languages	153
Large Numbers in Other Indigenous Cultures	154
Expressing Large Numbers in the NAN Languages.....	154
Expressing Large Numbers in the AN Languages of Papua New Guinea.....	155
Expressing Large Numbers in Island Melanesia, Polynesia and Micronesia	157
The Origin and Development of Terms for Large Numbers.....	160
References.....	164
9 Testing the Diffusion Theory.....	167
Kay Owens and Glen Lean	
Introduction.....	167
