Part I Overview of the Epidemic

1 An Epidemiologic Perspective	3
How Did We Get Here?	4
Some Basic Definitions	7
Ingredients for a (Successful) Epidemic	8
Striking the Right Balance	9
Moths to a Flame	10
Strategies in the War Against Opioid Abuse	11
Addressing the Agent	11
Addressing the Vector	12
Addressing the Host: Creating Immunity	14
Summary	17
References	18

Part II Focusing on the Agent

2 Understanding the Agent, Part I: Opioid Biology and Basic Pharmacology	23
Opioid Biology	24
Endogenous Opioids: The Body's Natural Analgesics	24
Opioid Receptors	28
Opioid-Modulating Systems	31
Opioid Pharmacology	33
Opioid Pharmacodynamics and Pharmacokinetics	33
Absorption and Transport	35
Distribution and Metabolism	36
Pharmacogenetics	38
Tolerance	41
Summary	42
References	43

3	Understanding the Agent, Part II: Adverse Effects	49
	Opioid Adverse Effects	50
	Psychiatric	50
	Neurologic	54
	Respiratory	56
	Cardiovascular	58
	Endocrine	59
	Immunologic	60
	Gastroenterologic	61
	Urologic	63
	Dermatologic	63
	Literature Review of Adverse Effects	63
	Summary	66
	References	66
4	Understanding the Agent, Part III: Specific Drugs	73
	Currently Available (Outpatient) Prescription Opioids	74
	Buprenorphine	74
	Codeine	77
	Fentanyl	80
	Hydrocodone	82
	Hydromorphone	82
	Levorphanol	83
	Meperidine	83
	Methadone	84
	Morphine	86
	Oxycodone	87
	Oxymorphone	90
	Tapentadol	90
	Tramadol	91
	Summary	92
	References	93
5	Attenuating the Agent: Reducing Opioid “Virulence”	99
	Introduction	99
	Brief Overview of Opioid Addiction Biology	100
	Overview of Virulence Attenuation Strategies	103
	Modifying Existing Central MOR Agonists	103
	Extended-Release/Long-Acting Opioids	103
	Abuse-Deterrent/Tamper-Resistant Formulations	105
	Prodrugs	108
	“Outside-the-Box” Approaches	108
	Partial Agonists	108
	Peripheral Agonists	109
	Atypical Strategies	110
	Summary	113
	References	113

Part III Focusing on the Vector

6 Best Practices Education, Part I: Pain Physiology, Psychology, and Alternatives to Opioids	121
Introduction	122
Pain Basic Science Primer	124
Nociception and the Cartesian Model	124
Neuropathic Pain and Central Sensitization	129
Cancer Pain	131
Neural Plasticity and Chronic Pain	132
Perception and Modulation	132
The Biopsychosocial Model and Pain Psychology	135
Non-opioid Pain Management	136
Prevention and Multimodal Care	136
Opioid Alternatives/Multimodal Analgesia in the Perioperative Setting	139
Psychosocial Assessment and Therapy	140
Patient Education and Fostering Self-Efficacy	140
Spirituality of Pain and Suffering	141
Summary	143
References	143
7 Best Practices Education, Part II: Evidence for and Against Opioid Therapy	149
Introduction	150
Opioid Therapy in Acute Pain	151
General Considerations	151
Perioperative Opioid Therapy	153
Opioid Therapy in Chronic Non-cancer Pain	156
Chronic “Nociceptive” Pain	157
Neuropathic Pain	161
Chronic Visceral Pain	163
Summary of Opioid Use in Chronic Non-cancer Pain	164
Opioid Therapy in Cancer Pain	165
Summary	166
References	167
8 Best Practices Education, Part III: Regulatory and Advisory Issues Related to Opioid Therapy for Pain	175
Introduction	177
How to Prescribe Opioids: Regulatory Issues	177
History of (Federal) Opioid Prescribing Legislation	179
Federal Regulations for Opioid Prescribing	180
State Regulations for Opioid Prescribing	182
State Medical and Nursing Board Rules for Opioid Prescribing	186
How to Prescribe Opioids: Advisory Issues	186
Legal Compliance	187
Understanding Pain	187

Thorough Evaluation and Risk Stratification	187
Clear Functional and Analgesic Treatment Goals and Plan	188
Informed Consent and Treatment Agreement (“Opioid Contract”) . . .	189
Initiating (or Continuing) a Trial of Opioid Therapy	190
Consultation and Referral	191
Prescribing Methadone for Pain	191
Discontinuing Opioid Therapy	192
Guidelines on Opioid Prescribing for Cancer Pain.	192
Other Recommendations.	195
Specific Precautions	195
Driving Precautions.	195
Eugeroics and Stimulants	198
Bowel Hygiene Agents	198
Naloxone Prescription.	199
Rotation and Holidays.	199
Summary.	200
References.	201

Part IV Focusing on the Host

9 Addressing Host Factors: Overview of Dependence and Addiction	207
Introduction.	208
Outcome Definitions	210
Overview of Addiction	212
Cardinal Phenomena of Addiction and Related Questions.	213
Addiction Theories and Models: Choice	214
Addiction as Learned Behavior.	216
Addiction as a Spiritual/Religious Problem	217
Addiction Theories and Models: Compulsion	217
Introduction to Biologic/Disease Models	218
Genetic Models	218
The Dopamine Theory	219
Rethinking Dopamine.	221
Limitations of Biology	223
Addiction Theories and Models: Social Systems	224
Relationships and Substance Abuse	224
The Subculture of Substance Abuse	225
Motivational Theory and Addiction	225
Summary.	226
References.	228
10 Opioid Dependence Risk Factors and Risk Assessment	233
Introduction.	234
Risk Factors for Opioid Misuse and Dependence.	235
Genetic Risk Factors.	236
Biological Risk Factors.	236

Psychosocial Risk Factors	238
Other Sociodemographic Risk Factors	242
Chronic Pain and Opioid Use Disorder	243
Prescription Factors and Opioid Use Disorder Risk	243
Population-Level Analyses	244
Primary Preventive Risk Assessment Approaches	245
Instruments for Initial Risk Assessment	246
Secondary Preventive/Aberrancy Assessment Approaches	251
Instruments to Monitor Compliance/Identify Current Aberrancy.	252
Summary	255
References	256
11 Addressing Host Factors: Primary, Secondary, and Tertiary	
Prevention of Opioid Dependence	265
Introduction	266
Primary Prevention	267
Secondary Prevention	272
Tertiary Prevention	274
Treatment of Opioid Addiction: General Considerations	274
Treatment of Opioid Addiction: Medication-Assisted	
Treatment (MAT)	276
Behavioral Treatment	281
Summary	285
References	286
Conclusion	291
Index	295

Opioid Dependence

A Clinical and Epidemiologic Approach

McAnally, H.B.

2018, XV, 301 p. 22 illus., 16 illus. in color., Hardcover

ISBN: 978-3-319-47496-0
