

Contents

1	Introduction	1
1.1	The Hydrologic Cycle	7
1.2	Arid Zones	10
1.3	Distribution of Arid Regions of the World	11
1.4	The Arid Zones of Iran	14
1.5	Classification of Deserts	15
1.6	The Deserts of Iran	18
2	Characteristics of Arid and Desert Ecosystems	21
2.1	Arid and Desert Areas Climate	21
2.1.1	Precipitation	23
2.1.2	Temperature	24
2.1.3	Evapotranspiration	24
2.1.4	Wind	25
2.1.5	Surface Runoff	26
2.1.6	Microclimatology	26
2.2	Soils of Arid and Desert Areas	27
2.2.1	Pedogenesis Factors	28
2.2.2	Soil Properties	32
2.2.3	Types of Soils	34
2.2.4	Factors Affecting Saline Soil Formation	40
2.2.5	Agricultural Aspects of Soil Characteristics	41
2.2.6	Soil Salinity	42
2.3	Vegetation Cover in Arid and Desert Areas	77
2.3.1	Generalities	77
2.3.2	Plant Community of the Deserts of Iran	81
2.3.3	The Effect of Climate and Physiological Properties on Desert Vegetation	82
2.3.4	Profitable Plants of Arid and Desert Areas	83
2.3.5	The Mechanisms of Plants' Resistance to Salinity	85

2.3.6	The Mechanisms of Plants' Resistance to Drought	86
2.4	Animals of Desert Areas	90
3	Management of Water Resources	93
3.1	Development of Water Resources Management	94
3.1.1	Rainwater Harvest	96
3.1.2	Irrigation with Saline Water	111
3.1.3	Reuse of Water	114
3.1.4	Other Water Resources	114
3.1.5	Magnetic Water	144
3.2	Water Protection Methods	147
3.2.1	Reduction of Evaporation from Water Surface	147
3.2.2	Reduction of Evaporation from Soil Surface	147
3.2.3	Reduction of Water Loss Due to Infiltration	162
3.2.4	Appropriate Methods of Irrigation	163
3.2.5	Reduction of Transpiration	164
3.2.6	Plant Management and Selection for Better Utilization of Water	165
3.2.7	Agriculture in a Controlled Environment	165
4	Amendment of Saline and Alkaline Soils	167
4.1	Amendment of Alkaline Soils	167
4.1.1	Selection of Amendment Material (Amendments)	168
4.2	Amendment of Saline Soils	169
4.3	Salt Accumulation Pattern in Different Irrigation Methods	170
4.3.1	Surface Irrigation	170
4.3.2	Sprinkler Irrigation	171
4.3.3	Drip Irrigation	171
4.4	Irrigation Management for Salinity Control	173
4.5	Solute Leaching in Different Irrigation Methods	173
4.6	Drainage and Salinity Control	173
4.7	Species Adapted to Saline Soils	174
5	Wind Erosion and Regeneration of Vegetation Cover in Arid and Semi-arid Areas	175
5.1	Wind Erosion	176
5.1.1	Sand Dunes and Their Critical Centers	178
5.1.2	Wind Erosion Damage	180
5.1.3	Sand Dune Control and Stabilization	182
5.2	Regeneration of Vegetation Cover	196
5.2.1	Characteristics of Favorable Plants for Regeneration of Vegetation in Arid and Desert Areas	197
5.2.2	Plant Species Suitable for Cultivation in Arid and Desert Areas	198

- 6 The Potential of Desert Areas 223**
- 6.1 Nature Hiking (Ecotourism) in Desert Areas 223
 - 6.1.1 Ecotourism and Natural Attractions in the Desert
Areas of Iran 224
 - 6.1.2 Kavir National Park 226
 - 6.1.3 Sargardan Island 227
 - 6.1.4 Hiking in Desert Areas 228
 - 6.1.5 Attractions of the Desert Lifestyle 229
 - 6.1.6 Geotourism 234
- 6.2 Solar Energy 235
 - 6.2.1 Pioneers of Solar Energy 235
 - 6.2.2 Applications of Solar Energy 235
 - 6.2.3 Solar Energy Status in Warm and Hot Desert 238
 - 6.2.4 Potential Usage of Solar Energy in Desert and Playa
Areas of Iran 238
- 6.3 Wind Energy 239
- 6.4 Geothermal Energy 241
- 6.5 Biogas Energy 241
 - 6.5.1 Facilities Required for Biogas Generation 242
- 6.6 Extraction Industries 243
- 6.7 Aqueous Culture 245
- 6.8 Biodiversity in Drylands 245
- 6.9 Economic and Practical Value of the Camel in Arid Regions 246
