Foreword	vii
Preface	xi
Acknowledgements	xiii
Contributors	xix
 Part I Introduction	
1 From Linear Delivery Process to Life Cycle Phases: The Validity of the Concept of Building Performance Evaluation	3
Wolfgang F.E. Preiser, Andrea E. Hardy and Ulrich Schramm	
 Part II Frontiers of Building Evaluation	
Preamble by Nigel Oseland	
2 From POE to BPE: The Next Era	21
Nigel Oseland	
3 Critical Frameworks for Building Evaluation: User Satisfaction, Environmental Measurements and the Technical Attributes of Building Systems (POE + M)	29
Vivian Loftness, Volker Hartkopf, Azizan Aziz, Joon-Ho Choi and Jihyun Park	
4 Informed Design: A Post-Occupancy Evaluation Toolkit for Courthouses	49
Erin Persky, Jay Farbstein and Melissa Farling	

5	Synthetic Populations of Building Office Occupants and Behaviors	63
	Jennifer A. Senick, Clinton J. Andrews, Handi Chandra Putra, Ioanna Tsoulou and MaryAnn Sorensen Allacci	
6	From Pre- to Post-occupancy Evaluations: Acceptance of Intelligent Building Technologies	73
	Ulrich Schramm, Sybille Reichart and Dominic Becking	
7	Evaluating the Built Environment from the Users' Perspective: Implications of Attitudinal Models of Satisfaction	87
	Guido Francescato, Sue Weidemann and James R. Anderson	
8	Towards a Hospital Activation Process Model	99
	Wolfgang F.E. Preiser, John P. Petronis, John W. Petronis and Lexi Petronis	
 Part III Advances in Evaluation Knowledge		
	Preamble by Martin Hodulak	
9	Merging Tradition and Innovation: Programming New Workplaces for Tradition-Steeped Companies	117
	Martin Hodulak	
10	Building-In-Use Assessment: Foundation of Workspace Psychology	129
	Jacqueline C. Vischer	
11	Evaluating Workplace Constructs Using Computerized Techniques of Space Syntax	141
	Linda N. Nubani	
12	Social Interactions in Work Environments: Expanding Building Evaluation	155
	Mille Sylvest	
13	Making POE Work in an Organization.	173
	Duncan Joiner	
14	POE for Organizations with a Repetitive Building Type	183
	Thierry Rosenheck	
15	US Army Command Headquarters: Evaluating Existing Buildings to Set Design Requirements	193
	Greg Allen Barker	

Part IV Advances in Evaluation Methods

Preamble by Ihab M.K. Elzeyadi

- 16 A Comparative Analysis of Predictive and Actual Performance of High Performance LEED™ Buildings.** 209
Ihab M.K. Elzeyadi
- 17 Post-Occupancy Evaluation: Research Paradigm or Diagnostic Tool.** 223
Franklin Becker
- 18 Towards Wellbeing: Hospital Evaluation Using the Problem-Seeking Method** 231
Steven Parshall and Sofia Fonseca
- 19 Evaluating Changes in Sustainability Culture: A Model for Universities and Other Organizations** 249
Robert W. Marans and John Callewaert
- 20 Mind the Gap: Studying Actual Versus Predicted Performance of Green Buildings in Canada** 261
Shauna Mallory-Hill and Mark Gorgolewski
- 21 The College and University Campus: Facility Assessments for Long Term Decision Making** 275
Brodie Bain
- 22 Emerging Trends in Performance Evaluation of Pediatric Intensive Care Units in Japanese Children's Hospitals** 285
Akikazu Kato, Shiho Mori and Masayuki Kato
- 23 Feeding the Knowledge Forward: Advancements in Post-Occupancy Evaluation Application Through Collaboration.** 295
Lindsey L. Fay

Part V Epilogue

- 24 Epilogue: From Building Evaluation to Building Performance Evaluation and Beyond.** 309
Jacqueline C. Vischer
- Index** 317

Building Performance Evaluation
From Delivery Process to Life Cycle Phases
Preiser, W.; Hardy, A.E.; Schramm, U. (Eds.)
2018, XX, 318 p. 103 illus., Hardcover
ISBN: 978-3-319-56861-4
