

Contents

- 1 Introduction 1**
 - 1.1 Motivation and Background 1
 - 1.2 Carrier Aggregation 3
 - 1.2.1 Motivation for Developing Carrier Aggregation with a QoE approach 3
 - 1.2.2 Deployment Scenarios for Carrier Aggregation 4
 - 1.2.3 Types of Carrier Aggregation 6
 - 1.3 Previous Studies in Resource Allocation for Spectrum Sharing 7
 - 1.4 Overview 10
 - 1.5 Book Organization 11
 - References 12
- 2 Utility Functions and Resource Allocation for Spectrum Sharing 19**
 - 2.1 User Applications Utility Functions 19
 - 2.2 Utility Proportional Fairness Resource Allocation 20
 - 2.3 Utility Proportional Fairness Resource Allocation with Carrier Aggregation 21
 - 2.4 MATLAB Code 22
 - References 23
- 3 Multi-Stage Resource Allocation with Carrier Aggregation 25**
 - 3.1 Distributed Resource Allocation with Carrier Aggregation 25
 - 3.1.1 Problem Formulation 26
 - 3.1.2 Primary and Secondary Carriers Optimization Problem 27
 - 3.1.3 Multi-Stage Distributed Resource Allocation Algorithm 30
 - 3.1.4 Optimal Rate Allocation Numerical Results 31
 - 3.2 Centralized Resource Allocation with Carrier Aggregation 38
 - 3.2.1 Multi-Carrier System Model 38
 - 3.2.2 Multi-Carrier Optimization Problem 39
 - 3.2.3 A Price Selective Centralized RA with CA Algorithm 42
 - 3.2.4 Multi-Carrier Rate Allocation Numerical Results 45
 - 3.3 Summary and Conclusion 48

3.4	C++ Codes.....	48
3.4.1	First Code	49
3.4.2	Second Code	55

4	Resource Allocation with User Discrimination for Spectrum Sharing.	63
4.1	Spectrum Sharing Between Public Safety and Commercial Users in Cellular Networks	64
4.1.1	Spectrum Sharing Problem Formulation	65
4.1.2	Spectrum Sharing Optimization.....	66
4.1.3	Algorithm for Optimal RA with Spectrum Sharing.....	68
4.1.4	Spectrum Sharing Simulation Results	69
4.2	Multi-Application Resource Allocation with User Discrimination in Cellular Networks.....	75
4.2.1	Problem Formulation	76
4.2.2	Resource Allocation Optimization Problem.....	77
4.2.3	Resource Allocation with User Discrimination Algorithms ..	80
4.2.4	Numerical Results	83
4.2.5	Price Sensitivity to Change in R	86
4.2.6	Price Sensitivity to Change in the Number of UEs	87
4.3	Resource Allocation with User Discrimination for Multi-Carrier Cellular Networks	88
4.3.1	Multi-Carrier Problem	89
4.3.2	Multi-Carrier RA with User discrimination Optimization Problem	91
4.3.3	Multi-Carrier Optimization Algorithm	98
4.3.4	Numerical Results	100
4.4	Summary and Conclusion	105
4.5	C++ Codes.....	106
4.5.1	First Code	106
4.5.2	Second Code	112
4.5.3	Third Code	116
4.5.4	Fourth Code	122
