Relevance of Engineering Education

The Empirical Research on Human Knowledge Processing in Natural Language Within Engineering Education	3
Stefan Svetsky and Oliver Moravcik	
Study on Interest and Perception of Value in Multinational Collaborative Design Projects Among Engineering Students	16
Ivan Enrique Esparragoza, Jared Ocampo, Jorge Rodriguez, Roberto Vigano, Carlos Sacchelli, Jorge Duque, Sheila Lascano, and Uladzislau Ivashyn	
Managing Industry Sponsored Capstone for Learning & Customer Satisfaction	30
T.H. DeAgostino and R.L. Dougherty	
The Content and Structure of Code of Ethics for Engineers in China	46
Man Zhang and Sunyu Wang	
A Study on the Educational Effectiveness of the Industry Professional Practice (IPP) Program	57
Chang-Heon Oh and Sung-Hui Kim	
Introducing Responsible Resource Management to the Engineering Education	71
Yury P. Pokholkov, Maria Yu. Chervach, and Kseniya K. Zaitseva	
Recruiting and Developing Academic Leaders	82
Alfred Ngowi	

Excellence in Engineering Education

Picking Low Hanging Fruits – Integrating Interdisciplinary Learning in Traditional Engineering Curricula by Interdisciplinary Project Courses	97
Andrea Dirsch-Weigand, Rebecca Pinkelman, Franziska D. Wehner, Joachim Vogt, and Manfred Hampe	
Metacognitive Development in Engineering Students Through Cooperative Problem Based Learning (CPBL)	107
Nur Fazirah Jumari, Khairiyah Mohd-Yusof, and Fatin Aliah Phang	
Program Outcomes and Institutions Management Frameworks as Seen by EUR-ACE and by CTI: A Comparison of Criteria	121
Anne-Marie Jolly	
Academia-Hospital Course Co-development: Developing an Internet-of-Things-Based Design Course for Engineering Undergraduate Students	132
Andi Sudjana Putra and Puneet Seth	
Motivating Engineering Students to Engage in Learning Computer Programming	143
Nor Azlinda Azmi, Khairiyah Mohd-Yusof, Fatin Aliah Phang, and Syed Ahmad Helmi Syed Hassan	
The Power of Self-evaluation Based Cross-Sparring in Developing the Quality of Engineering Programmes	158
Katriina Schrey-Niemenmaa, Robin Clark, Ásrún Matthíasdóttir, Fredrik Georgsson, Juha Kontio, Jens Bennedsen, Siegfried Rouvrais, and Paul Hermon	
Equity and Diversity in Engineering Education	
Theoretical Foundations of Vocational and Technical Education and the Part They Play in the Process of State Building	179
Luis A. Marques	
Engineering Challenges in Terms of Academic and Professional Training	191
Camila Garcia and Armando Pinela	
MCDM for Engineering Education: Literature Review and Research Issues	204
Syed Ahmad Helmi Syed Hassan, Shy Ching Tan, and Khairiyah Mohd Yusof	

Perception of Complex Engineering Problem Solving Among Engineering Educators	215
Fatim Aliah Phang, Aznah Nor Anuar, Azmahani Abdul Aziz, Khairiyah Mohd Yusof, Syed Ahmad Helmi Syed Hassan, and Yusof Ahmad	
A Subjective Examination of Implicit Root Stereotypes of STEM Disciplines	225
V. Lakshmi Narasimhan, G.V. Bhargavi, and A. Sultana	
Leveraging Professional Networks for an Equitable, Smart Society - A Case Study on the International Federation of Engineering Education Societies	237
David A. Delaine, Uriel Cukierman, Rohit Kandakatla, Lueny Morell, and Jennifer DeBoer	
Innovation in Engineering Education	
Recommending Exercises in Scratch: An Integrated Approach for Enhancing the Learning of Computer Programming	255
Jesennia Cárdenas-Cobo, Pavel Novoa-Hernández, Amikar Puris, and David Benavides	
An International Study of Faculty Perceptions on Communication Development in Engineering Education	272
Christina White and Daniel Hastings	
French Engineering Universities: How They Deal with Entrepreneurship and Innovation	284
Anne-Marie Jolly and Christophe Leger	
Application of Graph Theory to Analysing Student Success Through Development of Progression Maps	295
Randhir Rawatlal	
A Quantitative Study of the Role of Active Learning and Engagement in Improving Environmental Engineering Students' Learning Performance	308
Olivier Lefebvre and Sharon Prakash	
Breadth Experiential Courses to Flexibly Meet New Programme Outcomes for Engineers	326
Siegfried Rouvrais and Sophie Gaultier Le Bris	

**Characteristics of Student Centred Learning from the Perspective
of Engineering Lecturers 343**
Khairiyah Mohd-Yusof, Fatin Aliah Phang,
and Syed Ahmad Helmi Syed Hassan

A Virtual Learning System in Environmental Monitoring. 352
Daniel S. Brogan, Debarati Basu, and Vinod K. Lohani
