

Contents

1	Introduction	1
1.1	State of the Art	1
1.2	Infrared Imaging and Diagnostic Significance	3
1.3	Nomenclature	5
2	Image Acquisition	9
3	Image Pre-processing	11
4	Image Processing	17
5	Examples of Tailoring the Algorithm	27
5.1	Analysis of Temperature Distribution on the Patient's Back	28
5.2	Quantitative Assessment of the Quality of Dermatological Laser Treatments	54
5.3	Segmentation of Some Selected Objects in Infrared Images	62
6	Analysis of Image Sequences	83
6.1	Digital Image Stabilization	83
6.2	Serpentine Method of Infrared Image Analysis	89
6.3	Determination of Time Constants of the Object's Response	96
6.4	Application for the Analysis of Image Sequences	100
7	Algorithm Sensitivity to Parameter Changes	121
8	Conclusions	131
	Appendix	133
	References	135

Processing Medical Thermal Images

Using Matlab®

Koprowski, R.

2018, XIX, 145 p. 77 illus., 65 illus. in color., Hardcover

ISBN: 978-3-319-61339-0
