

Contents

Evaluation of Non-nuclear Alternatives to Replace the Nuclear Density Gauge During Compaction Quality Control of Unbound Pavement Layers	1
Ayman W. Ali, Yusuf Mehta, Manuel Celaya, and Giri Venkateela	
Quantifying the Mechanistic and Economic Impacts of Using Asphalt Rubber Mixtures	16
Mena Souliman, Ragaa Abd El-Hakim, Mark Davis, and Lubinda Walubita	
Fuzzy Logic Based Modeling for Pavement Characterization	27
Mercado Pérez José Luis and Beltrán Calvo Gloria Inés	
Impact of a Poly-olefin Based Additive on Bitumen and Asphalt Mix Performance	46
Jan Valentin, Lucie Benešová, and Tereza Valentová	
Influence of Mix Parameters on Development of Sulfur Modified Bituminous Paving Mixes with Sand	65
Subhashree Jena, Mahabir Panda, and Prasanta Kumar Bhuyan	
Effect of Spray Dryer Absorber as Mix Enhancers on HMA Performance	80
Clayton Cloutier, Emil G. Bautista, Ahmed F. Faheem, and Konstantin Sobolev	
Impact Load Test on Conventional and Roller Compactor Steel Fiber Reinforced Concrete Pavement	96
Zainab A. AL-Kaissi, Ahmed Saheb Daib, and Rusul Raed Abdull-Hussain	
Study on Mixing Proportion for AC-13C Asphalt Mixture and Construction Control	121
Wu Jing and Wu Li	

Study of Radioactive Characteristics of Cement Pastes Blended with GGBFS	130
Ahmed S. Ouda	
Optimum Partial Replacement of Cement by Rice Husk Ash and Fly Ash Based on Complete Consumption of Calcium Hydroxide	145
Winai Ouypornprasert, Narong Trairuangtatsana, and Kong Kamollertvara	
Freeze-Thaw Durability of Air-Entrained Concrete Incorporating Natural and Recycled Concrete Aggregate Mixtures	185
Prabir K. Kolay, Salman Sulaiman, Sanjeev Kumar, and Vijay K. Puri	
Use of Rice Husk Ash (RHA) as a Sustainable Cementitious Material for Concrete Construction	197
Mohammad Badrul Ahsan and Zahid Hossain	
Behavior of SCC Incorporating Granulated Blast Furnace Slag and Ground Clay Brick Powders at High Temperatures	211
M.H. Seleem, A.A.M. Badawy, S.A. Ahmed, and A.A. Elakhras	
Investigation on the Effect of Anti Stripping Additives on the Moisture Sensitivity of Bituminous Concrete	228
A.U. Ravi Shankar, Goutham Sarang, B.M. Lekha, and Calvin Carlton-Carew	
The Strength of Lightly Cemented Power Plant Ash	240
Felix N. Okonta, Thabo Falayi, and Roshuma Makhado	
Determination of Indirect Tensile Strength of Bituminous Concrete Mix Prepared Using Stone Dust and Cement as Filler Materials	249
Lokesh Gupta and G. Suresh	
Sustainable Application of Quarry Byproducts Mixed with Large Size Unconventional Aggregates for Improved Performance	262
Issam Qamhia, Hasan Kazmee, Erol Tutumluer, and Hasan Ozer	
Membrane-Forming Performance and Application of Emulsion Wax Curing Agent (EWCA) for Cement Concrete Curing	274
Jian-Bo Yuan, Jia-Liang Yao, Hui-Cong Wang, and Ming-Jie Qu	
Thermoelasticity, Superelasticity and Nanoscale Aspects of Structural Transformations in Shape Memory Alloys	287
Osman Adiguzel	
Mechanical Behavior of Hydraulic Concrete to Extreme Service Temperatures: The Influence of the Particle Size	294
Kenouza Yamina	

Thermal Properties of Base-Course Material Containing Recycled Glass Under Dry and Wet Condition 306
Youness Berraha, Michel Vaillancourt, and Daniel Perraton

The Application Analysis of Fly Ash in Magnesium Phosphate Cement. 322
Rui Huang and Xiangxing Kong

Author Index. 327

Materials for Sustainable Infrastructure
Proceedings of the 1st GeoMEast International
Congress and Exhibition, Egypt 2017 on Sustainable
Civil Infrastructures
Struble, L.; Tebaldi, G. (Eds.)
2018, XII, 354 p. 206 illus., Softcover
