Introduction to Swarm Search	1
1 Overview	1
2 Swarm Intelligence	2
3 Building Intelligent Swarms Using Stupid Drones	5
4 Organization	6
5 Conclusion	8
References	8
Cooperative “Swarm Cleaning” of Stationary Domains	15
1 Introduction	15
2 The Cooperative Cleaners Problem	16
3 Related Work	17
4 The Cleaning Protocol	18
4.1 Cleaning Protocol — Definitions and Requirements	19
4.2 The SWEEP Cleaning Protocol	20
4.3 Pivot Point	21
4.4 Signaling	22
4.5 Connectivity Preservation	24
4.6 Agents Synchronization	24
4.7 Clustering Problem	27
4.8 Mission Termination	28
5 Analysis	28
5.1 Definitions	29
5.2 Correctness	30
5.3 Detailed Analysis	31
5.4 Robustness	38
5.5 Comparison to Existing Work	39
6 Regions with Obstacles	41
7 Experimental Results	42
8 Conclusion	46
References	47

Swarm Search of Expanding Regions in Grids: Lower Bounds	51
1 Introduction.	51
2 The Dynamic “Cooperative Cleaners” Problem.	52
3 A Protocol-Agnostic Lower Bound for the Cleaning Time.	58
4 Impossibility Result	67
5 The Cleaning Protocol	68
6 Experimental Results.	69
7 Isoperimetric Inequality on the Grid	69
8 Discussion and Conclusion	77
Appendix – Definitions.	78
References	87
Swarm Search of Expanding Regions in Grids: Upper Bounds	91
1 Introduction.	91
2 The Dynamic “Cooperative Cleaners” Problem.	92
3 The Cleaning Protocol	98
4 Recursive Upper Bound	99
5 Direct Upper Bounds	110
6 Simplifying Theorem 2	112
7 An Upper Bound for k	114
8 Discussion and Conclusion	116
Appendix – Definitions.	117
References	126
The Search Complexity of Collaborative Swarms in Expanding	
Z^2 Grid Regions	129
1 Introduction.	129
2 Related Work	131
3 The Dynamic Cooperative Cleaners Problem	133
4 Grid Coverage — Analysis.	140
5 Dynamic Cleaners as Cooperative Hunters	147
6 Conclusions.	148
References	149
Collaborative Patrolling Swarms in Stochastically Expanding	
Environments	155
1 Introduction.	155
2 Related Work	156
3 Definitions.	157
4 Lower Bound	160
4.1 Direct Bound	160
4.2 Using the Bound	167
4.3 Parameters Selection	170
5 Lower Bound - Markovian Model	173
6 Impossibility Results.	178

6.1	Direct Result	178
6.2	Markovian Model	179
7	Experimental Results.	181
8	Conclusions.	183
