

# Contents

<b>1 Utility of Endoscopy in the Diagnosis of Hiatus Hernia and Correlation with GERD</b>	<b>1</b>
Francesca M. Dimou, Candace Gonzalez, and Vic Velanovich	
<b>2 The Role of MRI in GERD</b>	<b>17</b>
Christiane Kulinna-Cosentini	
<b>3 Utility of Ambulatory Esophageal pH and High-Resolution Manometry in the Diagnosis of Gastro-Esophageal Reflux Disease and Hiatal Hernia</b>	<b>29</b>
Daphne Ang and Mark Fox	
<b>4 Preoperative Diagnostic Workup for GERD and Hiatal Hernia: An Evidence and Experience-Based Approach</b>	<b>51</b>
Geoffrey P. Kohn	
<b>5 Indications and Procedures for Surgical Therapy of GERD with Hiatal Hernia</b>	<b>73</b>
Monica T. Young and Brant K. Oelschlager	
<b>6 Anterior Versus Posterior Fundoplication, Are They Equal?</b>	<b>93</b>
Courtney Olmsted and Peter Nau	
<b>7 Novel Endoscopic Antireflux Procedures: Do They Have a Role in Patients with Hiatus Hernia?</b>	<b>105</b>
George Triadafilopoulos	
<b>8 Magnetic Sphincter Augmentation for Symptomatic Small Hiatus Hernia</b>	<b>123</b>
Luigi Bonavina, Andrea Sironi, and Emanuele Asti	
<b>9 Laparoscopic Repair of Paraesophageal Hiatus Hernia: Suture Cruroplasty or Prosthetic Repair</b>	<b>131</b>
Manjunath Siddaiah-Subramanya, Breda Memon, and Muhammed Ashraf Memon	

<b>10</b>	<b>Lower Esophageal Sphincter Efficacy Following Laparoscopic Antireflux Surgery with Hiatal Repair: Role of Fluoroscopy, High-Resolution Impedance Manometry and FLIP in Detecting Recurrence of GERD and Hiatal Hernia. . . . .</b>	<b>153</b>
	Vivien Wong, Barry McMahon, and Hans Gregersen	
<b>11</b>	<b>Adverse Outcome and Failure Following Laparoscopic Anti-reflux Surgery for Hiatal Hernia: Is One Fundoplication Better than Other? . . . . .</b>	<b>169</b>
	Ciro Andolfi and Marco P. Fisichella	
<b>12</b>	<b>Post-operative HRIM and FLIP for Dysphagia Following Antireflux Procedures . . . . .</b>	<b>179</b>
	John Pandolfino and Dustin Carlson	
<b>13</b>	<b>Preoperative Assessment of Failed Fundoplication with Recurrent Hiatal Hernia . . . . .</b>	<b>197</b>
	Kenan Ulualp, Kathleen Simon, and Jon C. Gould	
<b>14</b>	<b>Recurrent GERD After a Fundoplication: Failure or Wrong Procedure . . . . .</b>	<b>209</b>
	S. Mittal	
<b>15</b>	<b>Management of Recurrent Paraesophageal Hernia. . . . .</b>	<b>223</b>
	John H. Rodriguez and Jeffrey Ponsky	
<b>16</b>	<b>Revision Strategies for Recurrent Paraesophageal Hiatal Hernia . . .</b>	<b>233</b>
	Jeffrey R. Watkins and Ralph W. Aye	
<b>17</b>	<b>Long-Term Results After Laparoscopic Reoperation for Failed Antireflux Procedure. . . . .</b>	<b>255</b>
	Giusseppe Quero, Alfonso Lapergola, Ludovica Guerriero, and Bernard Dallemagne	
<b>18</b>	<b>Utility of the Robot in Revisional Paraesophageal Hiatus Hernia . . .</b>	<b>269</b>
	Maamoun Harmouch, Erik B. Wilson, Peter A. Walker, and Shinil K. Shah	
<b>19</b>	<b>Quality of Life Following Laparoscopic Antireflux Surgery for Primary and Recurrent Gastroesophageal Reflux Disease. . . . .</b>	<b>281</b>
	Ilmo Kellokumpu and Eero Sihvo	
	<b>Index. . . . .</b>	<b>303</b>

Hiatal Hernia Surgery

An Evidence Based Approach

Memon, M.A. (Ed.)

2018, X, 309 p. 122 illus., 87 illus. in color., Hardcover

ISBN: 978-3-319-64002-0
