

Contents

Effects of Rotation and Stratification: An Introduction	1
GertJan F. van Heijst	
Turbulence and Mixing in Flows Dominated by Buoyancy	25
Paul F. Linden	
Mixing in Stratified Lakes and Reservoirs	61
Damien Bouffard and Alfred Wüest	
Energy Balance in Stably-Stratified, Wall-Bounded Turbulence	89
Oscar Flores and James J. Riley	
Some Aspects of Lagrangian Dynamics of Turbulence	101
Mickaël Bourgoïn	
Gravity and Turbidity Currents: Numerical Simulations and Theoretical Models	129
Eckart Meiburg and Mohamad M. Nasr-Azadani	
Transport Phenomena in Rotating Turbulence	181
Herman J.H. Clercx	

Mixing and Dispersion in Flows Dominated by Rotation
and Buoyancy

Clercx, H.J.H.; van Heijst, G. (Eds.)

2018, IX, 218 p. 112 illus., 47 illus. in color., Hardcover

ISBN: 978-3-319-66886-4
