Contents

Part I Advances in Fuel and Combustion

1 Environmentally Clean Reformulated Aviation Gasoline 3
Olesia Kondakova and Sergii Boichenko

2 Ignition Performances of Alternative Fuels Under Altitude Conditions According to Their Aromatic Content 15
Renaud Lecourt

3 Review of Renewable Biofuels in the Aviation Sector 25
Derya Unlu and Nilufer Durmaz Hilmioglu

4 Case Study of Alternative Jet Fuel Production with Bio-additives from Plant Oils in Ukraine and Poland 41
Anna Yakovlieva, Sergii Boichenko, Oksana Vovk, Kazimierz Lejda, and Oleksandr Gryshchenko

5 Development of a 3D Grain Burnback Simulation Tool for Solid Rocket Motors 65
Yusuf Ata, D. Funda Kurtulus, and O. Ugur Arkun

Part II Advances in Aerodynamics

6 A Prediction of Aerodynamics of Arbitrary Shape Non-fragmenting Space Debris During Decay Without Ablation 93
Sayavur I. Bakhtiyarov, Ramiz S. Gurbanov, Eldar T. Abdinov, and Nadir Yilmaz

7 Performance of a Propeller-Driven Cargo Airplane 103
Kasım Biber

8 Numerical Investigation of an S-Duct Diffuser at Different Inlet Boundary Conditions 111
Samet Aslan and D. Funda Kurtulus

9 Numerical Investigation of a Serpentine Inlet Validated with Experimental Results for Different Turbulence Models 129
Samet Aslan, D. Funda Kurtulus, Ender Hepkaya, and Sefa Yilmazturk

10 Aerothermal Investigation of a Turbine Cooling Channel with U-Bend 139
Isa Kavas, Tolga Yasa, and D. Funda Kurtulus

Part III Energy and Environmental Issues

11 Environment-Friendly Technology of Airport's Sewerage 161
Sergii Shamanskyi and Sergii Boichenko

12 Statistical Model Development for Military Aircraft Engine Exhaust Emissions Data 177
Akhlitdin Nizamitdinov, Yasin Şöhret, Aladdin Shamilov, and T. Hikmet Karakoç

13 The Improvement of Energy-Saving Performance at Ukrainian Airports 189
Margaryta Radomska, Larysa Chernyak, and Olexandr Samsoniuk

14 Ship Emissions and Human Health Relationship: A Theoretical and Numerical Investigation in Asyaport 205
M. Suner and E. Yalcin

15 Smart Protective Clothing for Aircraft Crew 221
Emel Onder, Ezgi C. B. Noyan, Sena C. Duru, Cevza Candan, Selcuk Paker, and Rafet Sayar

16 Advantages and Future of Electric Propulsion in UAVs 237
Melih Yildiz and T. Hikmet Karakoç

17 Greenization Factor of a Turbojet Engine 243
Yasin Şöhret and T. Hikmet Karakoç

Part IV Advances in Electronics and Control Technologies

18 Integration of Baro-Inertial-GPS Altimeter via Complementary Kalman Filter 251
Alberto Mañero Contreras and Chingiz Hajiyev

19 Testing the Determinant of the Innovation Covariance Matrix Applied to Aircraft Sensor and Actuator/Surface Fault Detection ... 269
Chingiz Hajiyev and Ulviye Hacizade

20 New Approach to the ATC-Pilot Radio Communication Phraseology Phonetic Confusion 285
Orhan Ertugrul Guclu
