

Contents

| | | |
|----------|---|----|
| 1 | Graph Theory | 1 |
| 1.1 | Basic Definitions and Examples | 1 |
| 1.2 | Paths and Connectivity | 3 |
| 1.3 | Periodicity | 7 |
| 1.4 | Matrices and Eigenvalues | 9 |
| 1.5 | Examples of Graphs | 13 |
| 1.5.1 | Circulant Graphs | 13 |
| 1.5.2 | Product Graphs | 15 |
| 1.5.3 | Cayley Graphs | 18 |
| 1.5.4 | De Bruijn Graphs | 20 |
| | Exercises | 21 |
| | Bibliographical Notes | 29 |
| | References | 30 |
| 2 | Averaging in Time-Invariant Networks | 31 |
| 2.1 | Rendezvous and Consensus | 31 |
| 2.2 | Averaging on Symmetric Regular Graphs | 33 |
| 2.3 | Stochastic Matrices and Averaging | 35 |
| 2.4 | Convergence Rate and Eigenvalues | 40 |
| 2.5 | Consensus Point | 42 |
| 2.6 | Stochastic Matrices Adapted to a Graph | 44 |
| 2.7 | Convergence Rate: Examples | 47 |
| 2.8 | Reversible Matrices | 49 |
| | Exercises | 53 |
| | Bibliographical Notes | 62 |
| | References | 65 |

| | | |
|----------|--|-----|
| 3 | Averaging in Time-Varying Networks | 69 |
| 3.1 | Time-Varying Updates: Uniform Connectivity | 69 |
| 3.2 | Time-Varying Updates: Cut-Balanced Interactions | 73 |
| 3.3 | Randomized Updates | 78 |
| | Exercises | 85 |
| | Bibliographical Notes | 88 |
| | References | 90 |
| 4 | Performance and Robustness of Averaging Algorithms | 93 |
| 4.1 | A Deeper Analysis of the Convergence to Consensus | 93 |
| 4.2 | Rendezvous and Linear-Quadratic Control | 96 |
| 4.3 | Robustness Against Noise | 98 |
| 4.4 | Robustness Against Quantization Errors | 100 |
| 4.5 | Distributed Inference | 101 |
| | Exercises | 103 |
| | Bibliographical Notes | 106 |
| | References | 107 |
| 5 | Averaging with Exogenous Inputs and Electrical Networks | 109 |
| 5.1 | Electrical Networks and Harmonic Functions | 109 |
| 5.2 | Effective Resistance in Electrical Networks | 116 |
| 5.3 | Averaging Dynamics with Stubborn Agents | 119 |
| 5.4 | Estimation from Relative Measurements | 121 |
| | Exercises | 125 |
| | Bibliographical Notes | 129 |
| | References | 130 |
| | Index | 133 |

Introduction to Averaging Dynamics over Networks

Fagnani, F.; Frasca, P.

2018, XII, 135 p. 22 illus., 3 illus. in color., Hardcover

ISBN: 978-3-319-68021-7
