

Contents

1	Introduction	1
	Katharina Tondera, Chris C. Tanner, Florent Chazarenc and Godecke-Tobias Blecken	
	General Scope	2
	Variation Driven by Precipitation	3
	Ecotechnologies	4
	References	5
2	Treatment Techniques for Variable Flows	7
	Katharina Tondera, Godecke-Tobias Blecken, Florent Chazarenc, Terry Lucke and Chris C. Tanner	
	Treatment Systems	8
	Stormwater Ponds and Basins	8
	Constructed Wetlands	11
	Bioretention Filters	20
	Swales and Buffer Strips	24
	References	25
3	Nutrient Removal from Variable Stormwater Flows	31
	Katharina Tondera, Godecke-Tobias Blecken, Julien Tournebize, Ülo Mander and Chris C. Tanner	
	Treatment Mechanisms for Nutrient Removal	32
	Concentrations of Nutrients from Stormwater, CSOs and Agricultural Diffuse Pollution	36
	Stormwater from Separate Sewer Systems and Highway Runoff	36
	Combined Sewer Overflows	36
	Agricultural Diffuse Pollution	39
	Treatment Systems	41
	Stormwater Sedimentation Ponds and Basins	41
	Constructed Wetlands	42

Floating Treatment Wetlands	44
Subsurface-Flow Constructed Wetlands	45
Bioretention Filters	48
Swales and Buffer Strips	50
References	50
4 Microbial Loads and Removal Efficiency Under Varying Flows	57
Rebecca Stott, Katharina Tondera, Godecke-Tobias Blecken and Christiane Schreiber	
Introduction	58
Treatment Mechanisms	58
Concentrations of Pathogens from Stormwater, Combined Sewer Overflows and Agricultural Diffuse Pollution	60
Stormwater from Separate Sewer Systems	60
Combined Sewer Overflows	62
Agricultural Diffuse Pollution	63
Treatment Systems	65
Stormwater Ponds and Basins	65
Constructed Wetlands	66
Bioretention Filters	68
References	70
5 Metals: Occurrence, Treatment Efficiency and Accumulation Under Varying Flows	75
Godecke-Tobias Blecken, Katharina Tondera, Heléne Österlund and Maria Viklander	
Introduction	75
Treatment Mechanisms	76
Metals in Stormwater from Separate Sewer Systems and Combined Sewer Overflows	77
Seasonal Variations	77
Variation Between Catchments	78
Variations Over Time	78
Treatment Systems	80
Stormwater Ponds and Basins	80
Constructed Wetlands	82
References	87
6 Emerging Contaminants: Occurrence, Treatment Efficiency and Accumulation Under Varying Flows	93
Katharina Tondera, Godecke-Tobias Blecken, Julien Tournebize, Maria Viklander, Heléne Österlund, Alexandra Andersson Wikström and Chris C. Tanner	
Introduction	94
Concentrations of Selected Emerging Contaminants	96

Treatment Systems	100
Stormwater Ponds and Basins	100
Constructed Wetlands	101
Bioretention Filters	104
Swales and Buffer Strips	105
References	105
7 Modelling Under Varying Flows	111
Anacleto Rizzo, Tamás Gábor Pálffy and Nicolas Forquet	
Modelling of Treatment Systems	111
Modelling Hydraulics of Variable-Flow Constructed Wetlands	112
Modelling Treatment Performance of Variable-Flow Constructed Wetlands	115
Future Perspectives	120
Novel Approaches for Design of Variable-Flow Constructed Wetlands	120
Process-Based Models as Design Tools	120
Limitations of the Wider Application of Models for Variable-Flow Constructed Wetlands	124
References	126

Ecotechnologies for the Treatment of Variable
Stormwater and Wastewater Flows

Tondera, K.; Blecken, G.-T.; Chazarenc, F.; Tanner, C.C.
(Eds.)

2018, IX, 127 p. 42 illus., 25 illus. in color., Softcover

ISBN: 978-3-319-70012-0
