

Contents

Part I Introduction

Urgency and Challenges of Ageing in Science and Engineering	3
Klaas van Breugel	

Part II Fundamentals of Ageing

Investigation of Long-Term Behaviour of Elastomeric Seals for Transport and Storage Packages	17
A. Kömmling, D. Wolff and M. Jaunich	
What Can Be Learnt from Ageing in Biology and Damage-Tolerant Biological Structures for Long-Lasting Biomimetic Materials?	27
Thomas Speck, Marc Thielen and Olga Speck	
Mechanics of Ageing—From Building to Biological Materials	39
B. A. Schrefler, F. Pesavento, R. Santagiuliana and G. Sciumè	

Part III Ageing in Infrastructure

The Relevance of Ageing for Civil Infrastructure: The Profession, the Politics, the Classroom	57
David A. Lange	
Study on Triage for Deteriorated Concrete Structures by JSCE-342	69
Shinichi Miyazato, Takashi Yamamoto and Ryouzuke Takahashi	
Ageing in Shallow Underground RC Culverts and Tunnels	81
M. Kunieda, X. Zhu, Y. Nakajima, S. Tanabe and K. Maekawa	

Part IV Ageing and Radiation

Radiation Shielding Properties and Freeze-Thaw Durability of High-Density Concrete for Storage of Radioactive Contaminated Soil in Fukushima	97
Sanjay Pareek, Yusuke Suzuki, Ken-ichi Kimura, Yusuke Fujikura and Yoshikazu Araki	
Ageing Behaviour of Neutron/Irradiated Eurofer97	111
I. Carvalho, A. Fedorov, M. Kolluri, N. Luzginova, H. Schut and J. Sietsma	
Ageing Management for Extended Storage of Spent Nuclear Fuel.	119
Y. Y. Liu	

Part V The Aesthetics of Ageing

Forever Young or Ageing Naturally?	141
Rob P. J. van Hees and Silvia Naldini	
The Noble Patina of Age	153
W. J. Quist and A. J. van Bommel	
The Ageing of the Creation	167
L. Melaard-Biçaçi, O. Çopuroğlu and E. Schlangen	

Part VI Modelling of Ageing Materials and Structures

Modeling Ageing Cementitious Pore Structure	185
Neven Ukrainczyk and Eddie A. B. Koenders	
Introduction to Structural Ageing-Specific Functions for Computational Models Based on Synaptic Networks	197
G. Mavrikas, V. Spitas and C. Spitas	

Part VII Risk Based Models of Ageing

Stochastic Models for Risk and Failure Under Ageing	219
Jürg Hüsler	
Statistical Models for Interval-Censored Time-to-Event Data	237
Geurt Jongbloed	
Epilogue	245
