

# Contents

<b>1</b>	<b>Introduction</b>	1
1.1	Motivation	1
1.2	Organization of This Book	2
<b>Part I Emotion in Music</b>		
<b>2</b>	<b>Representations of Emotions</b>	7
2.1	Perception of Emotions	7
2.2	Categorical Approach	7
2.3	Dimensional Approach	10
2.4	Summary	11
<b>3</b>	<b>Human Annotation</b>	13
3.1	Introduction	13
3.2	Length of a Musical Segment	13
3.3	Audio Music Data	15
3.3.1	Data Set	15
3.3.2	Music Experts	16
3.3.3	Annotation Process	16
3.3.4	Results	17
3.4	MIDI Music Data	20
3.4.1	Data Set	20
3.4.2	Hierarchical Emotion Model	21
3.4.3	Annotation Process	22
3.4.4	Results	22
3.5	Summary	23
<b>Part II Emotion Detection in MIDI Files</b>		
<b>4</b>	<b>MIDI Features</b>	27
4.1	Introduction	27

4.2	MIDI Features Tools . . . . .	28
4.3	Description of MIDI Features . . . . .	28
4.3.1	Rhythm Features . . . . .	29
4.3.2	Harmony Features . . . . .	33
4.3.3	Harmony-Rhythm Features . . . . .	38
4.3.4	Dynamic Features . . . . .	40
4.4	Conclusions . . . . .	40
<b>5</b>	<b>Hierarchical Emotion Detection in MIDI Files . . . . .</b>	<b>43</b>
5.1	Introduction . . . . .	43
5.2	Related Work . . . . .	43
5.3	MIDI Music Data . . . . .	44
5.4	Feature Extraction . . . . .	45
5.5	Construction of Classifiers . . . . .	46
5.5.1	First Level Classifiers . . . . .	46
5.5.2	Second Level Classifiers . . . . .	49
5.6	Hierarchical Classification . . . . .	50
5.7	Emotion Tracking in MIDI Files . . . . .	51
5.7.1	System Construction . . . . .	51
5.7.2	Musical Composition Segmentation . . . . .	52
5.8	Results of Emotion Tracking in MIDI Files . . . . .	53
5.8.1	Emotion Histograms of Musical Compositions . . . . .	53
5.8.2	Emotion Maps . . . . .	54
5.8.3	Quantity of Changes of Emotion . . . . .	56
5.9	Conclusions . . . . .	57
 <b>Part III Emotion Detection in Audio Files</b>		
<b>6</b>	<b>Audio Features . . . . .</b>	<b>61</b>
6.1	Introduction . . . . .	61
6.2	Features from Audio Analysis Tools . . . . .	61
6.2.1	Essentia . . . . .	62
6.2.2	Marsyas . . . . .	63
6.3	Selected Audio Features and Labeled Emotions . . . . .	63
6.3.1	Timbre Features . . . . .	64
6.3.2	Rhythm Features . . . . .	70
6.3.3	Tonal Features . . . . .	71
6.4	Conclusions . . . . .	74
<b>7</b>	<b>Detection of Four Basic Emotions . . . . .</b>	<b>75</b>
7.1	Introduction . . . . .	75
7.2	Related Work . . . . .	75
7.3	Music Data . . . . .	77
7.4	Feature Extraction . . . . .	78
7.5	Results . . . . .	78

7.5.1	Construction of One Classifier Recognizing Four Emotions . . . . .	78
7.5.2	Construction of Binary Classifiers . . . . .	79
7.5.3	Evaluation of Different Combinations of Feature Sets . . . . .	81
7.5.4	Emotion Maps . . . . .	81
7.6	Conclusions . . . . .	83
<b>8</b>	<b>Emotion Tracking of Radio Station Broadcasts . . . . .</b>	<b>85</b>
8.1	Introduction . . . . .	85
8.2	System Construction . . . . .	86
8.3	Music Data . . . . .	87
8.3.1	Training Data . . . . .	87
8.3.2	Recorded Radio Broadcasts . . . . .	87
8.4	Feature Extraction . . . . .	88
8.5	Construction of Classifiers . . . . .	88
8.5.1	Music/Speech Classifier . . . . .	88
8.5.2	Classifier for Emotion Detection . . . . .	89
8.6	Results of Emotion Tracking of Radio Stations . . . . .	89
8.6.1	Comparison of Radio Stations . . . . .	90
8.6.2	Emotion Maps of Radio Station Broadcasts . . . . .	90
8.7	Conclusions . . . . .	93
<b>9</b>	<b>Music Emotion Maps in the Arousal-Valence Space . . . . .</b>	<b>95</b>
9.1	Introduction . . . . .	95
9.2	Related Work . . . . .	95
9.3	Music Data . . . . .	96
9.4	Feature Extraction . . . . .	97
9.5	Regressor Training . . . . .	97
9.6	Evaluation of Different Combinations of Feature Sets . . . . .	98
9.7	Selected Features Dedicated to the Detection of Arousal and Valence . . . . .	99
9.8	Emotion Maps . . . . .	101
9.8.1	Emotion Maps of Two Compositions . . . . .	101
9.8.2	Features Describing Emotion Maps . . . . .	103
9.8.3	Comparison of Musical Compositions . . . . .	103
9.9	Conclusions . . . . .	106
<b>10</b>	<b>Comparative Analysis of Musical Performances by Using Emotion Tracking on the Arousal-Valence Plane . . . . .</b>	<b>107</b>
10.1	Introduction . . . . .	107
10.2	Related Work . . . . .	107
10.3	System Construction . . . . .	108
10.4	Music Data for Regressor Training . . . . .	108
10.5	Regressor Training . . . . .	110

10.6	Aligning of Audio Recordings . . . . .	110
10.7	Analyzed Performances . . . . .	112
10.8	Results . . . . .	113
10.8.1	Influence of Recording Alignment on Emotion Values of the Compared Segments . . . . .	113
10.8.2	Performances and Arousal over Time . . . . .	115
10.8.3	Performances and Valence over Time . . . . .	116
10.8.4	Performances and Arousal-Valence over Time . . . . .	117
10.8.5	Arousal-Valence Trajectory . . . . .	119
10.8.6	Scape Plot . . . . .	119
10.8.7	Arousalcape . . . . .	121
10.8.8	Valencescape . . . . .	122
10.8.9	AVscape . . . . .	123
10.9	Evaluation . . . . .	124
10.9.1	Parameters Describing the Most Similar Performances . . . . .	124
10.9.2	Ground Truth for Performing Similarity Assessments Between Performances . . . . .	125
10.9.3	Evaluation Parameters . . . . .	126
10.10	Conclusions . . . . .	129
