

Table of Contents

1.	Introduction	21
1.1	Research Background	23
1.2	Motivation and Objectives	28
1.3	Problem Description	30
1.4	Structure and approach of the work	38
2.	State of the Art	41
2.1	Supply Chain and Operations Management	41
2.2	The Pharmaceutical Supply Chain and Operations Management	67
2.3	The role of batch recording in pharmaceutical operations	86
2.4	Background on batch recording technologies and automation design	102
3.	Theoretical background	111
3.1	Research methodology	112
3.2	Analysis of generic solution types (technical dimension)	117
3.3	Correlation technical dimension with performance evaluation aspects	129
3.4	Analysis of organizational dimension	145
3.5	Conclusion	148
4.	Integrated evaluation model	151
4.1	Design guidelines of the performance evaluation model	151
4.2	Integrated evaluation model for EBRS	152
4.3	Evaluation index system	155
4.4	Evaluation aspects describing the organizational dimension	178
4.5	The evaluation algorithm	181

5.	Application of evaluation model	185
5.1	Selection of case study organization and description of scenarios	185
5.2	Application of FAHP	197
5.3	Data collection and analysis methods	200
5.4	Calculation	225
5.5	Evaluation results	237
5.6	Strengths and limitations of the model	239
6.	Conclusion, Summary and Outlook	243
6.1	Summary of results	243
6.2	Areas of further investigation	254
6.3	Key points of the work	261
6.4	Further recommendations	264
	References	267
	Annex Summary Batch Records Requirements	online available
	Annex Questionnaire	online available
	Annex Process Maps	online available

The annexes are freely available to download on the product site of this book on <http://www.springer.com>.

Electronic Batch Recording Solutions
Introduction of an Evaluation Model for the
Pharmaceutical Industry

Futschik, M.

2018, XX, 271 p. 64 illus., 10 illus. in color., Softcover

ISBN: 978-3-658-19818-3
