

Contents

Part I Basic Skill Training and Application

1	Getting Started with Arduino	3
1.1	Introduction	3
1.2	Arduino Variants	5
1.3	Install the Drivers	9
1.4	Arduino IDE	12
2	The Basic Functions	17
2.1	Overview	17
2.2	Structure	17
2.3	Digital I/O Functions	18
2.4	Analog I/O Functions	21
2.5	Advanced I/O Functions	24
2.6	Timer Functions	27
2.7	Communication Functions	30
2.8	Interrupt Functions	35
2.9	Math Functions	39
2.10	Programming Language Reference	44
3	Using Sensors with the Arduino	45
3.1	Introduction	45
3.2	Light Sensitive Sensors	45
3.2.1	Introduction	45
3.2.2	Photodiodes	46
3.2.3	Demonstration	47
3.3	Temperature Sensors	49
3.3.1	Introduction	49
3.3.2	Digital Temperature Sensor	49
3.3.3	Analog Temperature Sensor	54

3.4	Temperature and Humidity Sensor	57
3.4.1	Introduction	57
3.4.2	Demonstration.	59
3.5	Line-Tracking Sensor.	61
3.5.1	Introduction	61
3.5.2	Demonstration.	62
3.6	Ultrasonic Sensors	64
3.6.1	Introduction	64
3.6.2	HC-SR04	65
3.6.3	Demonstration.	65
3.7	Digital Infrared Motion Sensor	68
3.7.1	Introduction	68
3.7.2	Demonstration.	68
3.8	Joystick Module.	71
3.8.1	Introduction	71
3.8.2	Demonstration.	71
3.9	Gas Sensor.	73
3.9.1	Introduction	73
3.9.2	Demonstration.	74
3.10	Hall Sensor	76
3.10.1	Introduction	76
3.10.2	Demonstration.	77
3.11	Color Sensor	78
3.11.1	Introduction	78
3.11.2	Demonstration.	80
3.12	Digital Tilt Sensor	82
3.12.1	Introduction	82
3.12.2	Demonstration.	82
3.13	Triple Axis Acceleration Sensor.	84
3.13.1	Introduction	84
3.13.2	Demonstration.	85
3.14	Analog Sound Sensor.	88
3.14.1	Introduction	88
3.14.2	Demonstration.	88
3.15	Voice Recognition Module	90
3.15.1	Introduction	90
3.15.2	Demonstration.	91
3.16	Digital Vibration Sensor.	93
3.16.1	Introduction	93
3.16.2	Demonstration.	94
3.17	Flame Sensor	95
3.17.1	Introduction	95
3.17.2	Demonstration.	96

3.18	Capacitive Touch Sensor	98
3.18.1	Introduction	98
3.18.2	Demonstration.	99
4	Electromechanical Control Using the Arduino	101
4.1	DC Motor	101
4.1.1	Overview	101
4.1.2	Driven Circuit Design.	102
4.1.3	Demonstration.	103
4.2	Stepper Motor	108
4.2.1	Overview	108
4.2.2	Working Principle of Stepper Motor.	109
4.2.3	Driven Principle of Stepper Motor	110
4.2.4	Driven Circuit Design.	113
4.2.5	Demonstration 1	114
4.2.6	Demonstration 2	117
4.3	Servo Motor.	119
4.3.1	Overview	119
4.3.2	Driven Circuit Design.	120
4.3.3	Demonstration.	121
4.4	Hardware Setting	121
4.5	Explanation	123
5	Wireless Control Using the Arduino	125
5.1	Infrared Transmitter and Receiver Module.	125
5.1.1	Introduction	125
5.1.2	IR Transmitter/Receiver Module.	126
5.1.3	IR Kit.	128
5.2	2.4G Wireless Radio Frequency Module	136
5.2.1	Introduction	136
5.2.2	2.4 GHz Wireless RF Transceiver Module	136
5.2.3	Demonstration.	138
5.3	Bluetooth Module	142
5.3.1	Introduction	142
5.3.2	HC-05 Module	143
5.3.3	Modify HC-05 Module Defaults Using at Commands	144
5.3.4	Demonstration.	149
5.4	GSM/GPRS Module	153
5.4.1	Introduction	153
5.4.2	A6 GSM/GPRS Module	155
5.4.3	Demonstration.	156
5.5	Wi-Fi Module	161
5.5.1	Introduction	161
5.5.2	Wi-Fi Module.	161
5.5.3	Demonstration.	164

Part II Case Studies

6	PM2.5/Air Quality Monitor Using Arduino	171
6.1	Introduction	171
6.2	System Design	171
6.2.1	Air Quality Sensor (SEN0177)	172
6.2.2	Temperature and Humidity Sensor (DHT11)	175
6.2.3	Liquid-Crystal Display	175
6.2.4	Servo	177
6.2.5	Bluetooth (HC-05)	179
6.2.6	Software Development	181
6.3	Production Demonstration	182
6.3.1	Components	182
6.3.2	UNO R3 Digital Pinouts Are as Follows	182
6.3.3	Results	182
6.3.4	Codes	185
7	A Fire-Fighting Robot Using Arduino	189
7.1	Introduction	189
7.2	Task Definition	190
7.2.1	Task 1: Search the Fire Source	190
7.2.2	Task 2: Extinguishing the Fire	191
7.2.3	Task 3: Returning to the Start Position	191
7.3	Robot Design	191
7.3.1	Sensors	192
7.3.2	Extinguishing System	192
7.3.3	Motor Drive	193
7.3.4	Algorithms and Behaviors	194
7.4	Demonstration	194
7.4.1	Components	194
7.4.2	Romeo Pinouts Are as Follows	195
7.4.3	Results	195
7.4.4	Codes	196
8	Intelligent Lock System Using Arduino	205
8.1	Introduction	205
8.2	System Design	205
8.2.1	Key Design of Controllable Lock	207
8.2.2	Key Design of Android APP	210
8.2.3	Key Design of Host	214
8.3	Photos of Demonstration System	217
8.4	Conclusion	220
	Appendix: Arduino Language Reference	221
	References	227

Designing Embedded Systems with Arduino

A Fundamental Technology for Makers

Pan, T.; Zhu, Y.

2018, XVI, 228 p. 139 illus., 103 illus. in color.,

Hardcover

ISBN: 978-981-10-4417-5
