

# Contents

## Part I Invited Papers

<b>Innovative Uses of Solar Thermal Technology</b> . . . . .	3
Rajiv Shekhar	
<b>Comparison of Thermal Characteristics of Sensible and Latent Heat Storage Materials Encapsulated in Different Capsule Configurations</b> . . . . .	11
Muthukumar Palanisamy and Hakeem Niyas	

## Part II Solar Field

<b>Development of Dual-Axis Tracking Control System for Scheffler Dish Concentrator</b> . . . . .	23
A. Gokul Raj, Arun Bollavarapu and Mukul Dubey	
<b>Comments on Quality Control of Solar Radiation Data Measured at a Ground Station in Hot and Dry Zone</b> . . . . .	31
D. Kumar and B. Ravindra	
<b>Design of Field Layout for Central Receiver System to Generate 100–150 kW Solar Thermal Power</b> . . . . .	41
Pedamallu V.V.N.S.P. Raju and V. Narayanan	
<b>Design and Investigation of Parabolic Trough Solar Concentrator</b> . . . . .	55
Deepika Tamta and R.P. Saini	

## Part III Receiver and Heat Exchanger

<b>Study on Design of Cavity Receiver of Concentrating Solar Power Plants—A Review</b> . . . . .	69
Aditi Garg and R.P. Saini	

<b>Experimental Investigation of Solar Steam Generator Based on Evacuated Tube for Heating and Humidification . . . . .</b>	<b>79</b>
Sajith Lawrance, Anunaya Saraswat and Avadhesh Yadav	
<b>Selective Design of an Experiment for Evaluating Air–Water Hybrid Steam Condenser for Concentrated Solar Power. . . . .</b>	<b>89</b>
Sumer Dirbude, Nashith Khalifa and Laltu Chandra	
<b>Experimental and Computational Investigation of Heat Transfer in an Open Volumetric Air Receiver for Process Heat Application . . . . .</b>	<b>103</b>
P. Sharma, Laltu Chandra, Rajiv Shekhar and P.S. Ghoshdastidar	
<b>Experimental Performance Evaluation of a Parabolic Solar Dish Collector with Nanofluid. . . . .</b>	<b>115</b>
Jayesh Novel Pakhare, Harikesh Pandey, Mari Selvam and C.P. Jawahar	
<b>Part IV Coating</b>	
<b>Macro-study on Hard Anodised Aluminium Oxide (HAAO) Coated Solar Receivers. . . . .</b>	<b>127</b>
Ashutosh Arora, Chandra Mohan Arora, Pulak Mohan Pandey, Ashok Kumar Dargar, Suparna Mukhopadhyay and Tapan Kumar Ray	
<b>Effect of Growth Condition on Mechanical Properties of Zirconium Carbonitride Absorber-Based Spectrally Selective Coatings . . . . .</b>	<b>137</b>
B. Usmani, V. Vijay, R. Chhibber and Ambesh Dixit	
<b>Transition Metal-Based Spectrally Selective Coatings Using In-House Developed Spray System. . . . .</b>	<b>145</b>
Ajoy K. Saha, Laltu Chandra and Ambesh Dixit	
<b>Part V Thermal Energy Storage</b>	
<b>Thermal Conductivity Enhancement of Myristic Acid Using Exfoliated Graphite for Thermal Energy Storage Applications. . . . .</b>	<b>159</b>
Rohitash Kumar, Rakshanda Jakhoria and Ambesh Dixit	
<b>Performance Investigation of Lab-Scale Sensible Heat Storage System . . . . .</b>	<b>169</b>
Chilaka Ravi Chandra Rao, Hakeem Niyas, Likhendra Prasad and Muthukumar Palanisamy	
<b>Development of Phase Change Material-Based Temperature Regulation Facility Inside Protected Agriculture Structure . . . . .</b>	<b>187</b>
Priyabrata Santra, P.C. Pande, A.K. Singh, Surendra Poonia and D. Mishra	

## **Part VI Solar Cooling**

<b>Optimum Composition of Alternative Refrigerant Mixture for Direct Expansion Solar-Assisted Heat Pump Using ANN and GA . . . . .</b>	<b>199</b>
K. Vinoth Kumar, Lokesh Paradeshi, M. Srinivas and S. Jayaraj	

<b>Performance Evaluation of Solar–Biogas Hybrid Cold Storage System for Transient Storage of Horticultural Produce . . . . .</b>	<b>211</b>
Sampath Kumar Gundu, Asimkumar Joshi, Gokul Raj, Samir Vahora, Mukul Dubey and M. Shyam	

## **Part VII Process Heat**

<b>Design, Development and Performance Evolution of a Low-Cost Solar Dryer . . . . .</b>	<b>219</b>
Surendra Poonia, A.K. Singh, Priyabrata Santra and D. Mishra	

<b>Performance Evaluation of Double Effect Solar Still . . . . .</b>	<b>225</b>
Chinmay Dave, Subarna Maiti, Bhupendra Kumar Markam, Pankaj Patel and Jatin Patel	

<b>Transient Heat Transfer Analysis in Insulated Pipe with Constant and Time-Dependent Heat Flux for Solar Convective Furnace . . . . .</b>	<b>235</b>
Manish Sachdeva and Laltu Chandra	

## **Part VIII Smart Grid and Policy Research**

<b>Impact of Different Solar Radiation Databases on Techno-economics of Concentrating Solar Power (CSP) Projects in Northwestern India . . . . .</b>	<b>253</b>
Ishan Purohit, Saurabh Motiwala and Amit Kumar	

<b>Envisioning Post Domain of Restructured Accelerated Power Development and Reforms Programme-Fault Current Limiters . . . . .</b>	<b>265</b>
Jagdish Prasad Sharma and Vibhor Chauhan	

<b>Author Index . . . . .</b>	<b>275</b>
-------------------------------	------------

Concentrated Solar Thermal Energy Technologies

Recent Trends and Applications

Chandra, L.; Dixit, A. (Eds.)

2018, XV, 276 p. 137 illus., Hardcover

ISBN: 978-981-10-4575-2
