|---------------------------------------------------------------------------------|----|
| <b>1 Mineral Resources and Exploration</b> . . . . .                            | 1  |
| 1.1 Concept of Mineral Exploration . . . . .                                    | 1  |
| 1.2 Accessible and Available Resource and Reserves . . . . .                    | 3  |
| 1.3 Estimation of Undiscovered Resources . . . . .                              | 4  |
| 1.4 Economic—Definition of Exploration . . . . .                                | 5  |
| 1.5 Geological Cycles and the Formation of Mineral Deposits . . . . .           | 8  |
| 1.6 Project Effectiveness and Success Ratio . . . . .                           | 12 |
| Further Readings . . . . .                                                      | 15 |
| <b>2 Composition of the Earth and Mineral Resources</b> . . . . .               | 17 |
| 2.1 Crust of the Earth . . . . .                                                | 17 |
| 2.1.1 Common Rock Forming Minerals . . . . .                                    | 18 |
| 2.1.2 Physical Characteristics of Minerals . . . . .                            | 19 |
| 2.1.3 Importance of Mineralogical Characteristics . . . . .                     | 24 |
| 2.1.4 Mineralogical Identification . . . . .                                    | 25 |
| 2.2 Formation of Rocks and Mineral Deposits . . . . .                           | 27 |
| 2.2.1 Igneous Rocks . . . . .                                                   | 27 |
| 2.2.2 Sedimentary Rocks . . . . .                                               | 32 |
| 2.2.3 Metamorphic Rocks . . . . .                                               | 34 |
| 2.3 Other Ore-Forming Processes and the Resultant Mineral<br>Deposits . . . . . | 37 |
| 2.3.1 Guide to Locate Oxidation Enrichment Ores . . . . .                       | 39 |
| 2.4 Geological Structures . . . . .                                             | 41 |
| 2.4.1 Structure of Igneous Rocks . . . . .                                      | 41 |
| 2.4.2 Structures of Sedimentary Rocks . . . . .                                 | 42 |
| 2.4.3 Structures of Metamorphic Rocks . . . . .                                 | 43 |
| 2.4.4 Other Structures . . . . .                                                | 43 |
| Further Readings . . . . .                                                      | 58 |

|          |                                                                                     |     |
|----------|-------------------------------------------------------------------------------------|-----|
| <b>3</b> | <b>The Search for Ore Deposits and Chances of Success</b>                           | 59  |
| 3.1      | Geological Models and Methods of Exploration                                        | 59  |
| 3.1.1    | Efficiency of the Method in Exploration                                             | 61  |
| 3.2      | Exploration Procedure                                                               | 62  |
| 3.2.1    | Preliminary Exploration                                                             | 62  |
| 3.2.2    | Detailed Exploration                                                                | 65  |
| 3.3      | Types of Deposits and Exploration                                                   | 66  |
| 3.4      | Exploration Norms                                                                   | 68  |
| 3.5      | Analyzing Exploration Data                                                          | 70  |
| 3.6      | Economics of Exploration and Mining                                                 | 74  |
